STATE OF NEW HAMPSHIRE

Special Session of 1975-76

HOUSE JOURNAL

Wednesday, 1 Dec 75

The House met at 12:30 o'clock.

CALL OF THE SESSION

WHEREAS, the 1975 regular session of the General Court enacted into law Chapter 349 which mandates compulsory mental health coverage in certain health insurance policies written in this State and,

WHEREAS, it is the opinion of the Governor and Council based upon communications with many citizens of our State that one of the unforeseen results of this mandate will be severe economic impact upon both employers and employees in our State and,

WHEREAS, it is the opinion of the Governor and Council that said economic impact may have a deleterious effect on the economy of our State and,

WHEREAS, the effective date of said Chapter 349 is January 1, 1975 and,

WHEREAS, it is the solemn judgment of the Governor and Executive Council that the serious effects of said legislation becoming effective should be fully explored by the members of the honorable General Court.

NOW THEREFORE, because we deem that the welfare of the State so requires, by the powers vested in the Governor and Executive Council under Part 2, Article 50 of our Constitution we hereby call the General Court into session on December 30, 1975 for the purpose of considering the effects of Chapter 349 of the Laws of 1975 and to take such action as in the wisdom of the General Court is deemed necessary to lessen the economic impact of said legislation.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

Thank You dear God for the Gift of this season and for all seasons. We are reminded once again that You have chosen to come into the world the "people" way. You have come to earth In Jesus as tangible proof of Your love for all mankind. And yet, even as such glad phrases as "Merry Christmas", "Happy New Year", "Shalom" take on an emptiness with out some touchable, tangible offering of their meaning, so do our lives

ring of hollowness, when we dare forget we are born in Your image and called to witness to this truth with meaningful lives. Let the smallness of human self-centeredness give way to the birth of greatness and unselfish service with Your Divine Blessing in this hour. "You are the Potter, we are the clay." Mold us and make us in Your own way. May we seek Your guidance, with such a commitment, as we leave one year behind and enter a most significant year and time in the history of our State and Nation. In heartfelt sympathy we grieve with the families of Reps. Charles Cummings, Drake, Gauthier, Dunlap and Rousseau and ask You to bless them, in their time of loss and sorrow, with Love and peace. God Bless us, everyone. Amen!

Rep. Ainley, National president of the OWLS, led the Pledge of Allegiance.

SENATE MESSAGE

Under authority of the Call of a Special Session by the Governor and Council, the Senate has assembled and is now ready to proceed with the business of the 1975-76 Special Session.

ANNOUNCEMENT

Rep. Griffin, as Chairman of the membership committee of the order of Owls, announced the arrival of a new candidate for that organization with the birth of Abigail Roberts at 9:59 this morning at the Concord Hospital. Mother and daughter were doing fine and she hoped the Speaker would recover soon.

REMARKS BY THE SPEAKER

Members of the New Hampshire House of Representatives and Citizens of New Hampshire:

On December 19 of this month, the Governor and Executive Council passed a resolution calling for a special session of the General Court to begin December 30, 1975. We are here today in response to that call.

I thank you for coming. Your cooperation and attendance are particularly appreciated because today falls in the middle of the holiday season and because we are meeting with less than two weeks notices.

This special session is the result of a decision by the Governor to recall the legislature. He made this decision in November and he made it without prior consultation with you or with your elected leaders.

The Governor told his department heads of his decision to call a session before he told us.

The Governor told the press of his decision to call a session before he told us.

Nonetheless, the Supreme Court has reaffirmed the power of the Governor and Council to call us back and we are here.

As your Speaker, I did not contest the right of the Governor and Council to call us back to consider legislation that they felt was of great importance to the citizens of our state.

But as your Speaker, I strongly disagreed with the way they proposed to do this.

The Governor asked me to call you back to consider one item only—the item he had decided was important.

The Governor asked me to call you back for one day only.

The Governor asked me to call you back into regular session which meant that mileage could not be paid.

I refused. I refused because if there is anything I stand for as your Speaker, I stand for the protection of the rights and the prerogatives of the New Hampshire House of Representatives. Your rights and prerogatives are not mine to give away.

As a result of my refusal, the Governor and Council met to consider sending the question of recalling the legislature to the Supreme Court. I appeared before the Governor and Council on your behalf and asked them to submit a second questions

which dealt with our rights. In essence, I asked: if the Governor and Council has the power to call the legislature back, will the legislature return to a continuation of the regular session or to a special session?

The Governor and Council voted to send both questions to the court. This was the first time that any definite action had been taken by the executive branch, and I wrote each and every one of you to tell you what was going on. Those who responded to my letter showed overwhelming support for my defence of our rights and for this I thank you on the behalf of all of us.

On December 19, the Supreme Court ruled in our favor, and I wrote you all again that day to tell you of their decision.

In this second letter, I told you that December 19 was a historic day for the General Court.

For in their decision, the Court told us that what we take up, why we take it up, and how we handle it is not the business of the executive branch. It is our own business.

We are meeting today to decide how to handle what is now clearly our own business.

As your Speaker, I have made no prejudgments on what you will or will not do. Nonetheless it is my job to make certain suggestions. Based on my discussions and correspondence with you, I have developed a proposed schedule for the special session.

This proposed schedule would not involve us in a full blown fifteen day session. It would not require you to take a long period of time from your personal affairs. It will permit us to do our job from now until the end of our term as legislators.

Adoption of this schedule will put us in a posture to act whenever items of an emergency nature come to our attention. And you know as well as I do that this is likely to happen. Just a week ago today we did not know that there would be a major disturbance at the prison. But because we are in the special session posture, we are ready to act if action is necessary. This is what I think the legislature is all about.

You will be asked later today to adopt rules. A copy of the Rules committee proposal is in your seat pockets. We have recommended only those changes which will give us the flexibility we need to follow the proposed schedule.

You will also be asked later today to adopt a resolution authorizing the Rules committee to consider proposed legislation for introduction. However, in line with my policy of giving as much authority as possible to the House, no bill will be actually introduced without a vote from the floor. And as a member of the Rules committee, I think I can promise that the committee is going to be very hard-nosed in their recommendations to you.

I hope you will support both the proposed rules and the proposed resolution, for they are designed to give us the tools we need to have a new kind of a special session.

After we have put our own house in order, we will ask you to vote on a resolution inviting the Governor to address us in Joint Convention, a response to a request the President of the Senate and I received yesterday.

We will then take up the Introduction of Bills. So that our rules do not have to be suspended, the Rules committee will hold a meeting during a brief recess to recommend certain bills for introduction today. I shall recommend to the Rules committee that today's action deal only with bills relating to changes in Chapter 349 as that is the first matter before us.

What happens after this point will depend on the will of the House. The decisions we make today will be your decisions. My actions as your Speaker have been designed only to preserve our democratic process by securing us the extra time we need to follow our normal procedures.

I hope you will act to protect our procedures and the democratic process. Should you

wish to act to postpone the effective date of Chapter 349 to give you more time, I would have no objections, but I hope you will take no final action on any other matter without public hearings, committee deliberations and due notice to the House.

Nonetheless, these are your decisions to make. Your charge is in Part II, Article 5 of our Constitution which says, in part, "...full power and authority are hereby given and granted to the said general court, from time to time, to make, ordain and establish all manner of wholesome and reasonable orders, laws, statutes, ordinances, directions, and instructions...as they may judge for the benefit and welfare of this state..."

Welcome back.

Rep. Lawton moved that the Speaker's remarks be printed in the House Journal.
Adopted.

Sufficiently seconded.

The Speaker instructed the clerk to read the resolution in full.

JOINT CONVENTION

(Speaker Presiding)

The Governor addressed the joint convention as follows:

Members of the General Court:

I had what I thought was a good speech, and I am not going to take the time to give it because you've had a long day. The problems you came to solve, or certainly one of the important ones is still unsolved.

I would like to read to you a portion of my remarks that deals directly with that problem.

I think, regardless of our party affiliation or our particular positions, we are all elected officials and we do have a responsibility first of all to the people of this state. I would hope that before January 1 you might still find a way to resolve a problem—at least face up to it.

One chamber has done that and placed it before you.

I recognize that there has been a problem of parliamentary procedure in your chambers today.

But beside all of that, I hope that in a constructive and well-meaning and good faith manner, each and every one of us, within the limits of our authority, will shoulder our responsibility and try to proceed.

I would like to just call your attention to the facts around the problem as the Governor and Council saw that problem in calling you here today.

Blue Shield is currently in a deficit position of something in excess of three million dollars. Blue Cross has about a million dollars left in its surplus.

Physicians fees in the last 12 months have increased 10 percent. In 1974 Blue Cross was paying \$502.31 for an average hospital stay, while during the first nine months of 1975, this has increased to \$625.12 or an increase of 24.4 per cent.

There is only one real way that we can cut Blue Cross-Blue Shield premiums. That is by cutting expenses at all points in the medical process; doctor's bills, hospital costs, nursing home costs, and all related medical expenses. Therefore, about two months ago, I appointed a committee of our top department heads to look into all aspects of medical service costs. This committee, headed by Health and Welfare Commissioner Frank Whaland, also includes acting Insurance Commissioner Leo Fraser, and Labor Commissioner Robert Duvall.

Our acting Insurance Commissioner has been forced into a position where he must grant an eleven million dollar increase to Blue Cross-Blue Shield.

At least three million dollars of the increase can be directly attributed to the Legisla-

ture's passage and my signature of House Bill 727—so if there is any problem with 727, I share the responsibility of that as well as those who voted for it—providing mandatory mental health coverage to the existing Blue Cross-Blue Shield benefits. The Legislature was led to believe that the costs to consumers of this benefit would be \$900,000.

The Blue Cross people said it would cost five million dollars. The insurance department took testimony and heard evidence from all parties concerned and ruled that it would cost 2.9 million dollars. Under the law, the Insurance Department is judge and jury, the only appeal from its decision is to the State Supreme Court.

On December 4, 1975 I submitted to the Joint Committee a proposed solution to deal with both aspects of the increased cost in Blue Cross-Blue Shield insurance. Our legislation as suggested to your Joint Committee by Commissioners Fraser and Whaland would make the mental health coverage optional rather than mandatory. It would require the companies to offer it but it would give the individual purchasers the decision as to whether or not they desired to buy it. It would cut the cost from 2.9 million dollars to \$700,000 and it would re-define the concept of Blue Cross-Blue Shield coverages to deal with catastrophic medical exposures rather than swapping first dollar coverage with high administrative costs.

At the same time we suggest a medical review board that would attack at every level medical costs which is the real crux to obtaining realistic medical insurance rate deductions. This can be done. It has been done in the states of Maryland and Connecticut.

This is a challenge, ladies and gentlemen, that is before all of us.

I know that a bill has been passed by the Senate that would suspend the operation of House Bill 727, and that you have today had under consideration similar action.

I would hope, Mr. Speaker and Mr. President, that it might be possible still to decide to come back, and if you need hearings on the suspension bill have those hearings in the morning and perhaps then consider this piece of legislation in a response to a call made by the Governor and Council because of our belief that real consideration or reconsideration of this problem should be made by your honorable body before January 1.

Let me say to you, Mr. Speaker, and to you, Mr. President, that I stand ready to work with you tonight or tomorrow morning or any time in the future to try to resolve this present impasse and any other problems that you may have.

There is—and I want to definitely press this—as far as the executive branch is concerned, no feeling whatsoever of a desire to usurp any powers that belong to the Legislature.

We know the powers that are yours. They are described clearly in the Constitution. We respect them. We respect the Speaker. We respect the President, and the two branches of government. These are the branches that are most closely attuned to our people. And therefore, the branches that our people expect the most from.

I hold myself in readiness to do whatever may be your will in this matter and I am deeply grateful for this opportunity to say these few words to you.

I am sorry that there have been some problems here.

I do appreciate the fact that you took the time to come here.

I hope before you finally leave this problem, you will try once again to resolve it.

Thank you very much.

INTRODUCTION OF BILL

First, Second Reading & Referral

HB 30, making a supplemental appropriation to the division of welfare for medical assistance to patients of public psychiatric institutions (Drake, Coos 3—To Appropriations)

Rep. Plourde moved the adoption of item 29, *House Resolution*, relative to the Coast Guard's assumption of concurrent jurisdiction over certain waterways of the state, as approved by the Resolutions and Screening committee.

HOUSE RESOLUTION NO. 1

relative to the Coast Guard's assumption of concurrent jurisdiction over certain waterways of the state. (Reps. Roberts, Marsh, Leary, Lawton, James Murray, French, Young, Russell Chase, Beard and Buckman.)

Whereas, the United States Coast Guard has assumed concurrent jurisdiction over certain lakes and waterways lying entirely within the state, and

Whereas, the Coast Guard's assumption of jurisdiction over certain of New Hampshire's lakes and waterways may create problems of sufficient magnitude and complexity to warrant passage of legislation at either the state or the federal level to mitigate the economic consequences of the Coast Guard's actions; now, therefore, be it

Resolved by the House of Representatives that:

I. The Speaker of the House of Representatives shall refer to a standing house committee the question of finding a solution to the various problems created by the Coast Guard's assumption of concurrent jurisdiction over Lakes Winnepesaukee and Winnisquam, the Merrimack River and all their interconnecting waterways in New Hampshire.

(a) Said committee shall investigate, study and hold hearings as deemed neces-

sary on all aspects of the aforementioned situation with particular emphasis on the possibility of establishing a dual registration system (state and federal) as well as the legality of imposing a "users" fee or a "launchers" fee and submit its findings and recommendations for legislative action in appropriate bill form to the Speaker of the House of Representatives in sufficient time for action to be taken by the General Court in the present special session.

II. The clerk of the House of Representatives shall forward a copy of this resolution to the President of the United States Senate, the Speaker of the United States House of Representatives and each member of the New Hampshire Congressional delegation, as a protest to this unwarranted usurpation of sovereign states' rights to exercise complete control over any body of water lying entirely within its boundaries.

III. The clerk of the House of Representatives shall inform the governor and council that the House of Representatives urges them to seek an injunction in the federal courts until a favorable resolution in the courts or Congress can be had.

IV. The New Hampshire House of Representatives requests the New Hampshire Congressional delegation to take such action as may be deemed appropriate to have the United States Congress exempt Lakes Winnepesaukee and Winnisquam, the Merrimack River and all their connecting waterways from federal jurisdiction under the United States Coast Guard as an alternative to litigation in the federal courts.

Rep. Lawton requested suspension of the reading of the resolution and explained the resolution.

Reps. Russell Chase, Spirou, and French spoke in favor of the resolution.
Unanimously adopted.

307 members were recorded as present.

On motion of Reps. Chandler and French, the House adjourned at 2:37 o'clock to the call of the Speaker.

Tuesday, 30 Mar 76

The House met at 10:00 o'clock.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

Good Morning Lord. Thank You for the gift of this new day. It is a great day for we are alive and we are here and there is much to do. Let the results of our labors here not merit for us the accusation that we were political acrobats, leaving pussyfoot prints on the sands of time, but rather, we came to serve and we did and because of our careful and dedicated planting, the harvest was truth, justice and mercy. Dear God bless these servants of the people of our state that their leadership this day may be marked with the greatness of selfless service. In the name of the one who came to serve rather than to be served and changed the world and people, Jesus Christ. Amen!

COMMITTEE REPORTS

HB 30, making a supplemental appropriation to the division of welfare for medical assistance to patients of public psychiatric institutions. Ought to pass with amendment. Rep. Drake for Appropriations.

The bill appropriates to the Division of Welfare funds necessary to provide an additional medical assistance service to eligible persons who are 65 or over and receiving institutional inpatient psychiatric care. Inpatient psychiatric care is currently available to all patients in need of the service at the N.H. Hospital. No

additional funds, other than the small appropriation for one clerical person, will be required by the N. H. Hospital.

The passage of HB 30 will allow the Division of Welfare to recover from federal sources, 60% of the costs incurred providing this service to welfare eligible patients receiving inpatient psychiatric care at the N.H. Hospital or in other certified or accredited institutions.

The net financial impact to the State's general fund will be a decrease in the demand for general fund dollars by \$2.3 million for the current biennium.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

making a supplemental appropriation to the division of mental health and the division of welfare for medical assistance recipients who are 65 years or older and are patients of psychiatric institutions.

Rep. Drake explained the amendment.

Amendment adopted.

SUSPENSION OF RULES

Rep. Drake moved that the rules of the House be so far suspended as to place HB 30, making a supplemental appropriation to the division of mental health and the division of welfare for medical assistance recipients who are 65 years or older and are patients of psychiatric institutions, on third reading and final passage at the present time.

Adopted by the necessary two-thirds.

Rep. Drake moved that HB 30 be read a third time and passed.

Adopted.

Third reading and final passage

HB 30, making a supplemental appropriation to the division of mental health and the division of welfare for medical assistance recipients who are 65 years or older and are patients of psychiatric institutions.

COMMITTEE REPORTS (continued)

HB 4, to alter the minimum mental illness coverage requirements under major medical and non-major medical accident and health insurance. Ought to pass with amendment. Rep. Shirley Clark for Banks and Insurance.

Bill replaces the current mental health law. It equates mental illness with physical illness so that the individual will get comparable treatment. However, amendments include a provision which makes it mandatory for insurance companies to offer mental health coverage but the subscribers do not have to purchase it. Some people now being reimbursed for mental health treatment under the existing law will no longer receive these benefits because an employee may not wish to purchase such coverage.

Amendment

Amend the introductory paragraph of RSA 415:18-a as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

Each insurer who issues in this state group or blanket accident or health insurance or accident and health insurance providing benefits for medical or hospital expenses shall offer to each holder of a certificate of such insurance, and any other insurer who issues group or blanket accident or health insurance or accident and health insurance providing benefits for medical or hospital expenses shall offer to each holder of a certificate of

such insurance who is a resident of this state and whose principal place of employment is in this state, benefits for expenses arising from treatment of mental illnesses and emotional disorders which, in the professional judgment of psychiatrists, are subject to significant improvement through short-term therapy, and benefits for expenses arising from diagnosis and evaluation of all other mental illnesses and emotional disorders. Such benefits shall be at least as favorable to the subscriber as the following minimum benefits:

Amend RSA 415:18-a as inserted by section 1 of the bill by inserting after paragraph IV the following new paragraph:

V. In the case of policies or certificates providing benefits for medical expenses on other than a major medical basis, benefits for services rendered at a community mental health center approved by the division of mental health, department of health and welfare, shall be subject to terms and conditions at least as favorable as those which apply to the benefits for the services of physicians for other illnesses, and the ratio of the benefits to the full reasonable charges for the services of such a center shall be substantially the same as the ratio of the benefits for services of physicians for other illnesses to the fees reasonably and customarily charged for the services of such physicians for other illnesses. Benefits for outpatient treatment may be limited to not less than 15 full hours of treatment in any consecutive 12-month period.

Amend the introductory paragraph of RSA 419:5-a as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:

Each hospital service corporation shall offer to each of its subscribers, and each corporation which, if it were organized under the laws of this state, would be a hospital service corporation as defined by RSA 419:1 shall offer to each of its subscribers who is a resident of this state and whose principal place of employment is in this state, benefits for expenses arising from treatment of mental illnesses and emotional disorders which, in the professional judgment of psychiatrists, are subject to significant improvement through short-term therapy, and benefits for expenses arising from diagnosis and evaluation of all other mental illnesses and emotional disorders. Such benefits shall be at least as favorable to the subscriber as the following minimum benefits:

Amend the introductory paragraph of RSA 420:5-a as inserted by section 3 of the bill by striking out same and inserting in place thereof the following:

Each medical service corporation shall offer to each of its subscribers, and each corporation which, if it were organized under the laws of this state, would be a hospital service corporation as defined by RSA 420:1 shall offer to each of its subscribers who is a resident of this state and whose principal place of employment is in this state, benefits for expenses arising from treatment of mental illnesses and emotional disorders which, in the professional judgment of psychiatrists, are subject to significant improvement through short-term therapy, and benefits for expenses arising from diagnosis and evaluation of all other mental illnesses or emotional disorders. Such benefits shall be at least as favorable to the subscriber as the following minimum benefits:

Amend RSA 420:5-a as inserted by section 3 of the bill by inserting after paragraph III the following new paragraph:

IV. In the case of policies or certificates providing benefits for medical expenses on other than a major medical basis, benefits for services rendered at a community mental health center approved by the division of mental health, department of health and welfare, shall be subject to terms and conditions at least as favorable as those which apply to the benefits for the services of physicians for other illnesses, and the ratio of the benefits to the full reasonable charges for the services of such a center shall be substantially the same as the ratio of the benefits for services of physicians for other illnesses to the fees reasonably and customarily charged for the services of such physicians for other illnesses. Benefits for outpatient treatment may be limited to not

less than 15 full hours of treatment in any consecutive 12-month period.

CACR 1, relating to override of gubernatorial vetoes. Providing that the number of votes required be reduced to sixty percent of each house. Majority: Inexpedient to legislate; Rep. Chandler for Constitutional Revision. Minority: Ought to pass. (Rep. Joseph M. Eaton)

Majority: Previously defeated in the ConCon. Not of an emergency nature and no other state has this provision and we feel that the Legislature should have two-thirds to override. No valid reason for making the change in the percentage.

The minority believes legislative power to enact laws has been weakened and this resolution plus timing to prevent pocket veto will restore a little of the legislature's constitutional authority.

Reps. Chandler, Buckman, George Wiggins and Mabel Richardson spoke in favor of the majority report.

Rep. Joseph Eaton spoke in favor of the minority report. Rep. French moved that CACR 1 be laid upon the table and requested a roll call.

HB 25, to permit certain towns to use open pit incinerators. Ought to pass with amendment. Rep. Greene for Environment and Agriculture.

The committee agrees that it would be pointless and ineffective to pass the bill in its original form. The amended bill will allow the state agency and the commission to work with the EPA to recognize the problem faced by some of our towns in finding acceptable solutions to the solid waste problem.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to extension of time limits for eliminating burning
dumps in certain towns.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Extension of Time Limits. Amend 1975, 290 by inserting after section 2 the following new section:

290:2-a Limit Extension; Hardship Cases. This chapter shall not be construed to limit the authority of the air pollution control commission to grant extensions of the time limits set forth for the elimination of burning dumps in applicable regulations on a case by case basis on application by a town where demonstrated hardship is found to exist for such town and where the commission finds that such extension will not result in a violation of any air quality standard. In addition, this chapter shall not be construed to prevent the commission from revising its regulations pertaining to open burning to exempt certain classes of towns from any part of or all of such regulations upon approval by the United States environmental protection agency.

2 Effective Date. This act shall take effect upon its passage.

Amendment adopted.

Ordered to third reading.

Amend the bill by striking out section 2 and inserting in place thereof the following:

2 Appropriation. There is hereby appropriated the sum of \$453,352.00 for the fiscal year ending June 30, 1977 to the division of mental health, department of health and welfare, for the purposes of section one of this act. The governor is authorized to draw his warrant for said sums out of any money in the treasury not otherwise appropriated.

HB 3, to redefine professional nursing to include the performance of certain medical functions in collaboration with physicians or dentists licensed in other states. Ought to pass with amendment. Rep. Roma Spaulding for Health and Welfare.

This bill amends HB 77, passed in the 1975 Session, clarifying RSA 326-B:2, so that the professional nursing in their performance of those tasks in collaboration with physicians and dentists can practice under those duly licensed in the United States or Canada.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Collaboration with Licensed Physicians and Dentists. Amend RSA 326-B:2, V (e)(supp) as inserted by 1975, 281:1 by striking out said subparagraph and inserting in place thereof the following:

HB 5, providing for the defense and indemnification of state officers and employees against claims and civil actions arising out of acts committed while in the course of their employment and within the scope of their authority. Refer for interim study. Rep. Martin for Judiciary.

The effect of the bill is closely allied with the state sovereign immunity which is under study by an interim committee. This provides for study by a subcommittee of the Judiciary Committee in conjunction with the committee on sovereign immunity.

Referred for interim study.

HB 13, providing for the alternative disposition of delinquent children; prohibiting the detainment or commitment of persons who are 18 years of age or older to the youth development center; defining certain procedural rights for children in juvenile court proceedings; and permitting the placement of persons in need of supervision in certain shelter care facilities. Inexpedient to legislate. Rep. Daniel Healy for Judiciary.

An attempt to solve problems resulting from the passage of SB 18. The committee felt that this bill weakened the law without any benefit.

Resolution adopted.

HB 28, relative to resolving deadlocks in certain closely held corporations and authorizing the superior court to appoint a receiver for such corporations in the event a deadlock is not resolved. Inexpedient to legislate. Rep. Daniel Healy for Judiciary.

To solve the problem when there is a deadlock in a corporation, by giving the court authority to appoint a neutral director. Committee felt the bill needed more work done on it on liability, etc.

Resolution adopted.

HB 26, relative to the organizational convening of the general court. Ought to pass with amendment. Rep. Milne for Legislative Administration.

HB 16, legalizing a special town meeting in Newmarket. Inexpedient to legislate. Rep. Mann for Municipal and County Government.

HB 19, requiring local approval for any major development in a town. Inexpedient to legislate. Rep. Rowell for Municipal and County Government.

This bill would have bypassed the statutory authorization presently vested with the planning boards, boards of adjustment and building inspectors in all municipalities if adopted. Bill would require many referendums for such complexes as shopping plazas, industry and other commercial enterprises.

Resolution adopted.

HB 21, making an appropriation for operating and capital expenses of the division of mental health and the New Hampshire hospital. Ought to pass with amendment. Rep. Ellis for Public Works.

The committee heard considerable testimony on the capital budget section of this bill. All testimony was in favor of the proposed capital expenditure program and the committee voted unanimously 10 to 0 ought to pass as amended.

These capital expenditures are a must to provide for an orderly process of

renovating and equipping State Hospital buildings to help and speed up the reaccreditation process. With this program as planned reaccreditation may be possible before year end.

Amendment adopted.

Referred to Appropriations.

HB 24, making an appropriation for capital improvements. Ought to pass with amendment. Rep. Sanborn for Public Works.

Phase I of the Health and Welfare building development program was authorized by the 1969 Legislature and this laboratory section of the complex was completed in 1973.

Authority to proceed with the design and working drawings for Phase II was authorized by the 1974 special session. Drawings are now nearly complete for Phase II and the work can be put out for bids about May 1, 1976 which in general complies with previous legislative intent.

The new building will house Health and Welfare offices now in rented spaces throughout the city of Concord. It will house the Central Data Processing organization now renting on a year to year basis from Blue Cross/Blue Shield. These total rentals amount to nearly a half million dollars a year.

The building is also designed to house a state emergency operating center presently in cramped quarters in the State Armory.

This project will provide for an orderly building program and timed to stay ahead of constantly rising building costs. All testimony favored this project. This bill will also allow the removal of deteriorated wooden state office buildings on South Street. The vote of the Committee was unanimous.

AMENDMENT

Amend the bill by striking out sections 1 and 2 and inserting in place thereof the following:

1 Appropriation. The sums hereinafter detailed in this section are hereby appropriated for the projects specified to the department, agencies, and branches named: I Construction, furnishing and equipping of phase II of office building in Concord for Health and Welfare, including an emergency operating center, and construction, furnishing and equipping of an addition to such office building for Centralized Data Processing

2 Bonds Authorized. To provide funds for the appropriations made in section 1 of this act, the state treasurer is hereby authorized to borrow upon the credit of the state not exceeding the sum of \$12,600,000 and for said purpose may issue bonds and notes in the name and on behalf of the state of New Hampshire in accordance with the provisions of RSA 6-A.

Amendment adopted.

Rep. Morrisette requested a quorum count.

The Speaker declared a quorum present.

Rep. Eugene Daniell spoke against the committee report.

Rep. Forsaith Daniels spoke in favor of the committee report.

HB 24 was referred to Appropriations.

HB 18, establishing maximum noise levels for motorboats. Ought to pass with amendment. Rep. Claflin for Resources, Recreation and Development.

Limits noise emissions from power boats to tolerable levels. Exemptions provided for lawful races and the like.

AMENDMENT

Amend RSA 270:42 as inserted by section 1 of the bill by striking out same.

Amendment adopted.

Rep. Boyd moved that HB 18 be recommitted to the committee on Resources, Recreation and Development, to be reported back by the fifth legislative day and spoke to his motion.

Reps. Chandler, Lawton, Leary, Claflin, James Murray and Russell Chase spoke against the motion.

Rep. Ellis moved the previous questions.

Sufficiently seconded.

Adopted.

Motion lost.

Ordered to third reading.

HB 14, increasing the operating budget for the New Hampshire transportation authority; and restoring funds for the position of executive director of the authority and making an appropriation therefor. Inexpedient to legislate. Rep. W. Murray Clark for Transportation.

This bill would fund the position of Transportation Authority director which the Appropriations Committee refused to fund during the regular session.

Resolution adopted.

HB 15, regulating the transportation of hazardous cargo. Inexpedient to legislate. Rep. York for Transportation.

The Committee feels the bill would create an adverse effect on the economy.

Testimony confirmed that present movement of hazardous materials is fully regulated by the federal government and the New Hampshire Public Utilities Commission.

The safety record throughout the United States in the delivery and handling of these products is commendable. Committee vote was unanimous.

Rep. Krasker moved that the words, ought to pass, be substituted for the committee report, inexpedient to legislate, spoke to her motion and subsequently withdrew her motion.

Resolution adopted.

SB 6, implementing the staggered registration system for private passenger vehicles. Ought to pass. Rep. James W. Murray for Transportation.

This bill is a housekeeping measure to clarify the wording of the new staggered registration law.

Ordered to third reading.

HB 23, redefining the term wild land in the current use taxation law. Inexpedient to legislate. Rep. Cunningham for Ways and Means.

The sponsors withdrew HB 23 and requested that it be reported inexpedient to legislate.

Resolution adopted.

HB 29, repealing the termination date of RSA 284:14-b relative to permitting the creation of public greyhound racing kennels. Inexpedient to legislate. Rep. Parr for Ways and Means.

The legislation which this bill affects expires at the end of the 1977 regular session. In view of that the Committee did not feel it appropriate to pass this bill.

The bill needs further study which can be accomplished after the Special Session or during the 1977 regular session.

Resolution adopted.

HB 12, clarifying a county's power to do certain acts and restricting the power of a county convention to make appropriations. Ought to pass. Rep. Rowell for Municipal and County Government.

This bill does not restrict the powers of a county or county convention but puts counties in the same category as municipalities as defined in the statutes.

This bill merely restates court decisions which state that any unit of government

has only those powers which the legislature grants to them.

This bill takes effect July 1, 1977. This enables any county delegation to request the legislature for additional powers to appropriate money in specific areas.

Rep. Griffin moved that the words, inexpedient to legislate, be substituted for the committee report, ought to pass, and spoke to her motion.

Reps. Blanchette, William Boucher, Woodruff, Williamson, Richard Bradley, Oleson, Fortier and Record spoke in favor of the motion.

Reps. Rowell, George Wiggins, Bednar and Hanson spoke against the motion.

Rep. Coutermarsh moved that HB 12 be indefinitely postponed and spoke to his motion.

Rep. Hoar moved the previous question.

Sufficiently seconded.

Adopted.

Rep. Sayer requested a roll call on indefinite postponement.

Sufficiently seconded.

HOUSE CONCURRENT RESOLUTION NO 1

The subcommittee on Resolutions and Screening having approved its introduction, Reps. Roberts, Spirou, French, Lyons and Conley offered the following:

HCR1, relative to supporting the re-enactment of the general revenue sharing program.

Whereas the United States House of Representatives and Senate enacted and the President signed the *State and Local Fiscal Assistant Act of 1972*, known as the General Revenue Sharing law; and,

Whereas, the General Revenue Sharing law is designed to return a portion of federal tax collections to state, county and local governments for meeting locally-identified, high priority needs; and,

Whereas, the General Revenue Sharing law is based on the principles of home rule and local control of revenues returned to states, counties and local governments and allows recipient governments to determine their own uses for the funds; and,

Whereas, the General Revenue Sharing funds have enabled New Hampshire governments to prevent the imposition of major new taxes and limit increases in existing taxes; and,

Whereas, the General Revenue Sharing law will have returned approximately \$33,000,000 to the state government, approximately \$8,700,000 to county governments and approximately \$58,000,000 to municipal governments in the period December, 1972 to December, 1976; and,

Whereas, the *State and Local Fiscal Assistance Act of 1972* will expire on December 31, 1976, unless extended or re-enacted by Congress; and,

Whereas, there are several proposals currently before Congress to continue General Revenue Sharing;

Now, Therefore, Be It Resolved by the House of Representatives, the Senate concurring:

That the New Hampshire general court in special session calls upon the New Hampshire congressional delegation to support the re-enactment of General Revenue Sharing with all deliberate speed; and,

That the New Hampshire general court in special session calls upon the New Hampshire congressional delegation to consistently support the exclusion of General Revenue Sharing re-enactment from the terms of the Congressional Budget Act so that re-enactment may be effected early in 1976; and,

That a copy of this resolution and all accompanying papers with the signatures of the leadership of the house and senate be transmitted forthwith to each member of the New Hampshire congressional delegation.

Adopted.

HOUSE RESOLUTION 2

The subcommittee on Resolutions and Screening having approved its introduction, Reps. Roberts, Spirou, Conley and Lyons offered the following:

HR 2, requesting the public utilities commission to hold a public hearing before granting any fuel adjustment surcharge to any electric utility company.

Whereas, the cost of electricity is a significant factor in the economy of New Hampshire and in the economic well-being of our citizens; and

Whereas, the public utilities commission is charged by statute with insuring that the price of electricity is just and reasonable; and

Whereas, the appearance of fairness in administrative procedures is as important to the consuming public as the appearance of fairness in the procedures followed by the legislative and judicial branches of government; and

Whereas, it has been the practice of the public utilities commission to allow electric utilities companies to pass through increases of fuel costs to their own customers in the form of a full adjustment surcharge without first holding public hearings to ascertain either the necessity for the increase or the ability of consumers of electricity to pay the increased price of electricity; and

Whereas, this practice on the part of the public utilities commission has given rise to a widespread feeling on the part of the citizens of this state that the price of electricity and

the practices of electric utility companies in establishing those prices are unjust, unreasonable and not in the best interest of the people or of the economy of New Hampshire.

Now, Therefore, Be It Resolved by the House of Representatives, in special session assembled, that we call upon the public utilities to hold public hearings to determine whether fuel adjustment surcharges should be permitted and to hold public hearings before each fuel adjustment surcharge proposed to be levied upon consumers of electricity in New Hampshire may be levied.

Further Be It Resolved, that a copy of this resolution be forwarded to the public utilities commission.

Rep. Spirou spoke in favor of the Resolution

Adopted.

HOUSE RESOLUTION 3

The subcommittee on Resolutions and Screening having approved its introduction, Reps. Roberts, Spirou, Conley, Lyons, Milton Cate and Forsaith Daniels offered the following:

HR 3, urging the governor and council to take
the contract for the forensic unit off the table and
to vote on it at their next meeting.

Whereas, the general court is deeply concerned with the loss of accreditation by the New Hampshire Hospital and has made reaccreditation a priority item on the list of its concerns for the welfare of the people of this state; and

Whereas, the general court has repeatedly demonstrated its concern that the New Hampshire Hospital should be reaccredited as quickly as possible by increasing appropriations for staff and equipment at that institution; and

Whereas, the general court has underwritten an extensive program of renovation and rehabilitation of the physical plant of the N. H. Hospital in order to hasten the date when reaccreditation will be achieved; and

Whereas, the lack of adequate facilities for forensic patients was a contributing factor in the loss of accreditation and the planning and construction of a new facility will materially aid the process of accreditation; and

Whereas, Chapter 454 of the Laws of 1975 was enacted establishing a committee to study the creation and operation of a new forensic unit, which Committee was composed of representatives of all three branches of government; and

Whereas, the report of that committee on October 1, 1975 unanimously recommended that "(w)hile physically separate and administratively distinct, the new facility should, nonetheless, be in close proximity to the New Hampshire Hospital; and

Whereas, the general court in Laws of 1975, 504:1, V (b)(7) authorized and directed the office space study committee to study all aspects of the needed forensic unit, the "(s)tudy to include location, planning and working drawings for (a) forensic unit" and appropriated \$250,000 for this purpose; and

Whereas, the report of the office space study committee on October 20, 1975 unanimously recommended that the new forensic unit be constructed on the grounds of the New Hampshire Hospital; and

Whereas, the office space study committee, under the authority and direction of Laws of 1975, 504:1, V (b)(7), and after a thorough examination of all persons who sought to be retained, recommended on December 22, 1975 that of an architectural and engineering consulting firm be engaged to prepare working drawings of the proposed new forensic unit; and

Whereas, the office space study committee submitted a contract with the consulting

firm it had selected to governor and council for approval on January 21, 1976; and

Whereas, that contract, which is essential to continuing the work of the office space study committee was authorized and directed to do by Laws of 1975, 504:1, V (b)(7), was laid on the table without discussion at the January 21, 1976 meeting of governor and council and has laid on the table in the months since then.

Now, Therefore, Be It Resolved that the house hereby urges the governor and council to recognize that it remains the firm intention and direction of the general court that plans for a new forensic unit be prepared as expeditiously as possible; that the office space study committee has been delegated the authority to act on behalf of the general court in this regard, and that the work of that committee in having working plans and drawings prepared should not be delayed any longer;

Further Be It Resolved, that the House hereby urges the governor and council in the strongest possible terms to take the contract submitted to them on January 21, 1976 from the table and to act upon said contract at the next regularly scheduled meeting of the governor and council in order to expedite the process of reaccreditation of the New Hampshire Hospital and to comply with the legislative intent which led to the passage of Laws of 1975, 504:1, V (b)(7).

Reps. Forsaith Daniels and Belair spoke in favor of the resolution.

Adopted.

HOUSE CONCURRENT RESOLUTION 2

Reps. Sweeney, Spirou and French offered the following:

HCR 2, instructing the secretary of state to notify
town and city clerks not to use literacy
tests in registering voters.

Whereas, members of the general court have received reports that towns and city clerks and supervisors of checklists in some cities and towns have been requiring persons to take a literacy test before they can be registered to vote in those cities and towns; and

Whereas, the statutory authority for administering tests, RSA 55:10-13, has been nullified in effect by decisions of the United States Supreme Court which have declared literacy tests as a prerequisite for voter registration to be contrary to the United States Constitution; and

Whereas, the election officials of all cities and towns should be informed that under the Supreme Court decision and pending a change in state law, they cannot administer literacy tests prior to registering voters; now, therefore, be it

Resolved by the House of Representatives, the Senate concurring:

That the attorney general be directed to prepare a letter addressed generally to all election officials in the state explaining the effect of United States Supreme Court decisions which have invalidated literacy test laws, including RSA 55:10-13, and stating that election officials may not administer such tests prior to registering voters;

That the attorney general deliver said letter to the secretary of state who shall make a sufficient number of copies and who shall mail a copy to all of the election officials in the state;

That the clerk of the Senate give copies of this resolution to the attorney general and the secretary of state.

Reps. French, Sweeney, Cressy and Spirou spoke in favor of the resolution.

Adopted.

HOUSE RESOLUTION 4

The subcommittee on Resolutions and Screening having approved its introduction, Reps. Conley, Lyons, Spirou and Roberts offered the following:

HR 4, requiring all bills recommended for introduction by the House Rules Committee and accepted for introduction by the House to be signed by all sponsors and co-sponsors before 5:00 p.m. on March 30, 1976

Whereas, it is in the best interest of the general court and of the people of New Hampshire to expedite the business of the present Special Session;

Now, Therefore, Be It Resolved by the House of Representatives: that all bills recommended for introduction by the House Rules Committee and accepted for introduction by the House on March 30, 1976 must be signed by their sponsors and co-sponsors not later than 5:00 p.m. on March 30, 1976; and

COMMUNICATION

OPINION OF THE ATTORNEY GENERAL CONCERNING ARTICLE 3d OF PART 2 OF THE CONSTITUTION

March 5, 1976

The Honorable George B. Roberts, Jr.
Speaker of the House of Representatives

Dear Mr. Speaker:

You have asked for responses to two questions concerning the 1974 Amendment to Article 3d of Part 2 of the Constitution of New Hampshire (hereinafter "Article 3d"), effective November 6, 1976, which provides for a meeting of the General Court "for organization purposes" on the first Wednesday of December, biennially. You asked these two questions: whether the oath of office may be administered to members of the General Court at the newly authorized organizational meeting; and whether the General Court may elect the Secretary of State and Treasurer of New Hampshire at the organizational meeting. It is our opinion that the answer to each question is yes.

The new amendment must be read in conjunction with existing provisions of the Constitution. Two provisions which have significance in their respect are Article 22d of Part 2, pertaining to election of the Speaker and other officers of the House of Representatives and to adoption of the House rules of proceedings, and Article 84 of Part 2 pertaining to the oath of civil officers. Article 22d provides in pertinent part:

The house of representatives shall choose their own speaker, appoint their own

officers, and settle the rules of proceedings in their own house; and shall be judge of the returns, elections and qualifications, of its members, as pointed out in this constitution . . .

Article 84 provides in pertinent part: "[a]ny person chosen . . . representative, . . . accepting the trust, shall, before he proceeds to execute the duties of his office, make and subscribe . . ." the oath of office set forth in the Article.

Clearly, election of the speaker and officers of the House of Representatives and the adoption of rules of proceedings in that forum are significant activities which directly pertain to the legislative body's execution of its function. Under the circumstances, it would seem appropriate to conclude that such activities are part of the "duties of . . . office" which a State Representative must execute and that therefore a prerequisite to such execution is the oath of office under Article 84. In addition, election of officers and adoption of rules of proceedings clearly seem to be organizational and therefore the kind of activities which should occur during the organizational meeting in December. It is therefore our opinion that the oath of office must be administered at the beginning of the December organizational meeting.

The question remains, once sworn into office, what are the functions which the General Court may perform? The 1974 New Hampshire Voter's Guide, in describing the theory behind the December organizational meeting, states that the meeting would: "assure that New Hampshire will always have a Legislature available to deal with possible state emergencies; and allow the newly elected Legislature to organize early, leaving the regular session free for lawmaking."

The Guide implies that one motivation for having a separate organizational meeting was to insure that the regular session was not spent in organizational matters. See also, *Journal of the Convention to Revise the Constitution*, Wednesday, May 8, 1974, at 14-15 (Resolution No. 4 providing that organizational activities will occur "only prior to beginning of the legislative session.")

The key to answering the second question which you have posed lies in the interpretation which is placed on the word "organizational." For purposes of interpreting this word in the present context, we note that the statement quoted above from the Voter's Guide contrasts organizational with lawmaking. In other words, the explanatory statement presented to the voters implied that organizational matters were to be identified by contrasting them with lawmaking functions. There is no need for argument that the elections of the Secretary of State and the Treasurer are not examples of lawmaking. It follows that these elections should be classified as organizational.

It is therefore our opinion that elections of the Secretary of State and Treasurer may properly be conducted during the December organizational meeting of the General Court.

Yours respectively,
David H. Souter
Attorney General

James C. Sargent, Jr.

("America," lyrics by Samuel Francis Smith)

My country, 'tis of thee, Sweet land of liberty, Of thee I sing; Land where my father died, Land of the pilgrims' pride, From ev'ry mountain side Let freedom ring!

My Native country thee, Land of the noble, free, Thy name I love: I love thy rocks and rills, Thy woods and templed hills; My heart with rapture thrills Like that above.

Let music swell the breeze, And ring from all the trees Sweet freedom's song: Let mortal tongues awake; Let all that breathe partake; Let rocks their silence break, The sound prolong.

Our father's God! to Thee, Author of liberty, To Thee we sing: Long may our land be bright With freedom's holy light; Protect us by Thy might, Great God, our King! Amen!

COMMITTEE REPORTS

SB 5, to make mental illness coverage under health and accident insurance optional for insured groups and subscribers. Inexpedient to legislate. Rep. Shirley Clark for Banks and Insurance.

This subject passed the House and is now before the Appropriations Committee.

Rep. McLane spoke in favor of the committee report.

Rep. George Wiggins moved that SB 5 be laid upon the table.

Motion failed.

Resolution adopted.

SB 24, amending the eligibility requirements to provide for Vietnam bonus payments to those veterans who are otherwise qualified but did not immediately return to New Hampshire upon discharge from military service. Ought to pass. Rep. Vachon for Claims, Military and Veterans Affairs.

This legislation corrects the statute (Chapter 478) enacted in 1975, which inadvertently denied the Vietnam bonus to those service personnel who had the requisite service requirements, but were not residents of New Hampshire at time of discharge from the service; statute is amended to require New Hampshire residency only at the time of entry into service.

Ordered to third reading.

SB 23, reinstating Hesser college as a corporation and ratifying certain degrees granted by them. Ought to pass. Rep. Hager for Education.

This bill is a housekeeping measure that corrects an act of the regular session. It reinstates an ongoing college so it can grant degrees.

Ordered to third reading.

SB 15, continuing the solid waste committee. Ought to pass. Rep. Barrus for Environment and Agriculture.

There was no opposition at the hearing. The committee feels that the legislation is necessary to complete the work of the solid waste committee and allocate the remaining funds.

Ordered to third reading.

SB 43, revising the economic poisons law. Majority: Ought to pass with amendment; Rep. Barrus for Environment and Agriculture. Minority: Refer to Committee on Environment and Agriculture for interim study for report to the next regular session. Reps. Leonard Smith, O'Neil, Millard, Corser, Bowler, Grace DeCesare and Woodruff.

The majority of the committee believes that SB 43 is needed to bring the pesticide laws in compliance with EPA standards, and to allow the New Hampshire Pesticides Control Board to fulfill its duties. The proposed amendment is a correction in the oil spillage law to allow mosquito control.

Minority recommends that due to the short time allowed to review this 17-page far-reaching bill it should be sent to study for report to the next regular session.

Rep. Woodruff withdrew the Minority report of Refer to committee on Environment and Agriculture, and spoke in favor of the Committee report.

AMENDMENT

Amend RSA 438:1, I(a) as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

Nothing in this chapter, however, shall prohibit the application of mosquito larvae control compounds under permits issued by the pesticides control board pursuant to RSA 149-D.

Amendment adopted.

Ordered to third reading.

HB 11, to require legislative approval before a rule promulgated by an administrative agency may take effect. Ought to pass with amendment. Reps. Cornelius, Rod. O'Connor and McLane for Executive Departments and Administration.

Amendment clarifies agencies rule-making responsibilities and redefines "rule" so that irrelevant material will no longer be filed. It also requires agencies to notify every member of the relevant legislative committee of each proposed rule, and gives legislators the right to request a public hearing on any proposal. Bill as amended is important first step toward publication of an Administrative Code and development of legislative oversight of rule-making.

Rep. Roderick O'Connor explained the committee report.

V. If an agency finds that an imminent peril to the public health, safety or welfare requires adoption, amendment or repeal of a rule with fewer than 30 days' notice and states in writing its reasons for that finding, it may proceed without prior notice or hearings or upon any abbreviated notice and hearing that it finds practicable, to adopt an emergency rule. The rule may be effective for a period of not longer than 120 days after filing but the adoption of an identical rule under the provisions of paragraph I is not precluded.

(b) subject to applicable constitutional or statutory provisions, an emergency rule becomes effective immediately upon filing with the director of legislative services, or at a stated date less than 10 days thereafter, if the agency finds that this effective date is necessary because of imminent peril to the public health, safety or welfare. The agency's finding and a brief statement of the reasons therefor shall be filed with the rule. The agency shall take appropriate measures to make emergency rules known to the persons who may be affected by them.

4 Uniform System of Drafting and Numbering Rules. Amend RSA 541-A:4 by inserting after paragraph II the following new paragraphs:

III. The director of legislative services shall have the authority to require each agency to conform to a uniform system of drafting and numbering for its rules and he may require any agency to rewrite any rule submitted for filing to conform to this uniform system before that rule may be filed.

IV. Explanation for Proposed Floor Amendment to HB 16 Relative to the Town of Carroll

The town of Carroll includes within its boundaries the area known as Bretton Woods, said area including a substantial amount of the total acreage of the Mount Washington Development Company. The Mount Washington Development Company is now in bankruptcy and the possession and operation of its assets in said town are now held and operated by a mortgagee of said development company, the Institutional Investors Trust.

The town real estate taxes for the years 1974 and 1975 are now on appeal by said mortgagee, therefore, the taxes have not been paid. Such taxes annually approximate one-third of the annual tax revenues for said town. The town has borrowed on tax anticipation notes for the 1974 and 1975 years as much monies as it can. The town can no longer meet its financial obligations unless it be empowered to borrow on long term notes to meet its operating expenses. Also, such long term borrowing is needed to retire the tax anticipation notes issued for the years 1974 and 1975.

COMMUNICATION

The Honorable George B. Roberts, Jr.

Speaker of the House

Dear Mr. Speaker:

With deep regret I submit my resignation from my position as Clerk of the House of Representatives, effective this Thursday, April 22.

With the help of my devoted colleagues and friends I have completely recovered from my recent illness, and it is time to achieve my long-desired goals of traveling to some of the remote places of the earth while time still permits.

After eighteen years of service as Clerk and Assistant Clerk this has been a tough decision for me to make. I shall try in every way to help continue the substantial progress that is being made in making us a more effective institution.

God bless you all!

Wednesday, April 21

The House met at 10:00 o'clock.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

Let us pray: Good morning God. Thank You for being here with us. Perhaps You've heard this one Lord, "The only difference between men and boys is the price of the toys." I suspect Lord, there is more truth than poetry in such words. It can be frightening when adults refuse to "put away childish ways." Yet, a childlike response You will not despise, that is, to approach the realities of life with humility, faith, hope, love. God help us to know the difference between childish and childlike behavior and respond not react to the tasks that are before us with maturity of purpose and service. Thank You God for this day and give us wisdom to use it wisely and well.
Amen!

HB 9, making a supplemental appropriation to the operating budget of the state prison. Inexpedient to legislate. Rep. Drake for Appropriations.

Substance of this bill has been collapsed into HB 8 to keep effect on budget as clear as possible.

Resolution adopted.

HB 10, making an appropriation to reimburse mental health agencies under the medicaid program. Ought to pass with amendment. Rep. Drake for Appropriations.

This bill authorizes the Division of Welfare to accept \$287,970 transferred from the Grants to Community Health Services appropriation.

The amount transferred when matched with \$437,030 of federal funds appropriates to the Division of Welfare \$725,000 to be expended to reimburse the public and private facilities for services rendered clients eligible under the Medicaid program. The amendment eliminates the previous amendment which commits \$400,000 to development grants for 1977.

Rep. Drake explained the committee amendment.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

making an appropriation to reimburse mental health facilities under the medicaid program.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Authorizing Reimbursement to Community Mental Health Facilities for Services Provided Welfare Clientele Under Medicaid. Amend 1975, 505:21 by striking out said section and inserting in place thereof the following:

505:21 Medical Assistance.

I. It is hereby declared to be the intent of the general court that the appropriation made by section 1.05,03,07,01 (medical assistance provider payment) of this act shall first be for the payment of mandatory services; second, for the payment of nursing home services; third, for the payment of prescribed drugs and fourth, for the payment of dental care services. The director of the division of welfare shall continue to provide medical services to the medically needy consistent with the applicable federal regulations and within the amounts appropriated.

II. The sum of \$725,000 is hereby appropriated to the division of welfare for fiscal year 1977 and credited to the appropriations made in section 1.05, 03, 07, 03, 01, 09, which shall be expended to reimburse the public and private community mental health facilities in New Hampshire for services rendered to public welfare clientele under the medicaid program. The sources of the funds for this appropriation are as follows: the sum of \$287,970 shall be transferred from the division of mental health from the appropriation made in section 1.05, 03, 04, 01, 02, 90, and the sum of \$437,030 shall be from federal funds obtained under Title XIX of the federal Social Security Act.

2 Effective Date. This act shall take effect July 1, 1976.

Amendment adopted.

Ordered to third reading.

HB 20, increasing the mileage rate for all state officials and employees required to use their private cars in the conduct of official business for the state and making an appropriation therefor. Inexpedient to legislate. Rep. Drake for Appropriations.

Any funds that may become available should first be applied to general employee benefits.

Resolution adopted.

HB 22, authorizing the payment of a shift differential to certain employees of the New Hampshire hospital and the Laconia state school and training center relating to the medical-dental staff of New Hampshire hospital and making an appropriation therefor. Ought to pass with amendment. Rep. Drake for appropriations.

The amendment does not change the parts of the bill relative to the reclassification of two dentists of the New Hampshire Hospital from classified positions to unclassified positions correcting an error made in the 1973, 594:1 New Hampshire Hospital Staffing Change.

The amendment, however, eliminates from consideration the payment of a shift differential. The Committee does not consider the request to be of an emergency nature and assigned other hospital needs a higher priority than this request.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relating to the medical-dental staff of New Hampshire hospital.

Amend the bill by striking out sections 1 and 2 and renumbering sections 3 through 8 to read as

1 2 3 4 5 and 6 respectively.

Amendment adopted.

Ordered to third reading.

HB 27, making statutory changes in the fiscal policies of state agencies. Inexpedient to legislate. Rep. Drake for Appropriations.

The Committee saw no need to pass the bill. The references to capital budgets are already being done at the state level. The Sweepstakes changes are all being done in a proper manner and no one felt we should add more costs onto the counties because of the State Superior Court. Resolution adopted.

HB 32, establishing an outdoor recreation planning program and making an appropriation therefor. Ought to pass with amendment. Rep. Drake for Appropriations.

This bill provides additional funds necessary for the Outdoor Recreation Planning Program which is required in order for New Hampshire to remain eligible for BOR

funds and provides for interim overview by the Fiscal Committee of the General Court.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

increasing the appropriation for the bureau of outdoor recreation grant eligibility program.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Appropriation. In addition to any other sums appropriated, there is hereby appropriated to the department of resources and economic development the sum of \$15,500 for the fiscal year ending June 30, 1977 for the bureau of outdoor recreation grant eligibility program. The said sum shall be a charge against federal funds in the amount of \$7,750 and against the general funds of the state in the amount of \$7,750. These appropriations are for the sole and exclusive purpose of said program and no part shall be used, transferred or expended for any other purpose. These funds may be used in part as grants to regional planning commissions and for independent consultants. If the federal grant received is less than estimated, the general fund appropriation shall be reduced by the same amount as the estimated federal funds are reduced, and the total appropriation shall not exceed the reduced totals of funds received from each source.

2 Report to Fiscal Committee. Commencing on the first day of the fourth month after the effective date of this section, the commissioner shall submit quarterly reports to the fiscal committee of the general court concerning the activities and proceedings of the planning program.

3 Effective Date. This act shall take effect July 1, 1976.

Amendment adopted.

Rep. Joseph Cote moved the HB 32 be indefinitely postponed and spoke to his motion.

Rep. LaMott spoke against the motion.

Rep. Drake spoke against the motion and yielded to questions.

Rep. Cote requested a quorum count.

The Speaker declared a quorum present.

SB 17, providing funds for the sire stakes fund from a share of the tax on harness horse races; eliminating breakage payments to the sire stakes fund and reducing the holding period for unclaimed pari-mutuel tickets. Ought to pass with amendment. Rep. Drake for Appropriations.

The evidence presented indicated that the limited program had paid dividends. and whereas this bill requires no more state funds in this biennium, we felt the bill should pass.

AMENDMENT

Amend the bill by striking out all after section 5 and inserting in place there of the following:

COMMITTEE REPORTS (continued)

SB 19, making a supplemental appropriation for the bureau of markets in the department of agriculture. Ought to pass. Rep. Drake for Appropriations.

The sums appropriated in this bill cover additional contract expense. A previous subscription price increase covers the added cost.

Ordered to third reading.

SB 22, permitting the liquor commission to purchase land in Manchester for locating a state liquor store, providing for emergency repairs in the boiler room at the New Hampshire youth development center and making appropriations therefor; and relative to the location of the troop A/substation of the state police. Ought to pass with amendment. Rep. Drake for Appropriations.

The Committee felt very strongly that we should not start buying land in this special session for a liquor store in Manchester as there are too many variables to make proper judgment in such a short time. The addition of \$20,000 for the furnaces at Youth Development Center is a definite emergency. The Troop A barracks should be located on the state-owned land in Epping as it is centrally located in Troop A. No one in the district will have to travel any inordinate distance to reach this location. The State would have to build and man two head-quarters if we locate in Newington. The two park amendments are to clarify and allow what seemed to be reasonable changes.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

state financial assistance under the provisions of RSA 149-B, and including any necessary land acquisition, easements and rights-of-way.

III. In order to achieve a high degree of reliability and to provide for efficient layout, construction and maintenance of pollution control facilities, the commission is hereby authorized to locate sewer and related facilities in all public roadways, whether owned or controlled by a municipality or the state subject to RSA 249:13.

IV. The commission is also hereby obligated to restore the public roads, when disturbed for the purpose indicated in paragraph III, to a condition acceptable to local and state highway authorities.

Personnel of municipalities engaged in the operation of sewage and/or waste treatment facilities, as referred to herein, shall be given an opportunity to become employees of the commission (with all benefits previously accrued) upon the effective date of the transfer of the municipal sewage and/or waste treatment facilities to the commission. In no case shall personnel accepting state employment, as provided hereunder, be paid less than the salary paid such individuals as of January 1, 1973, nor shall they suffer a loss or reduction in benefits associated with tenure of service. Amend 1975, 505:1, 03, 05, by adding to the footnote the following: Other provisions of law notwithstanding, the New Hampshire water supply and pollution control commission is hereby directed to allocate only those projects, which qualify for state aid under RSA 149-B, to federal grants made available under P.L. 92-500, 92nd Congress (subsequent amendments thereof, or any other relevant federal legislation).

Under current law a survivor cannot take anything out of a deposit box, except a will, without getting permission from the Department of Revenue Administration. This bill merely allows those direct descendants who are not taxed under our inheritance tax laws and in whom the tax commission has no interest to remove the contents of a safety deposit box. and the motion passed.

The sub-committee on Resolutions and Screening having approved its introduction, Reps. Roberts, Spirou and Sweeney offered the following:

HCR 2, instructing the secretary of state to notify town and city clerks not to use literacy tests in registering voters.

Whereas, members of the general court have received reports that towns and city clerks and supervisors of checklists in some cities and towns have been requiring persons to take a literacy test before they can be registered to vote in those cities and towns; and

Whereas, the statutory authority for administering tests, RSA 55:10-13, has been nullified in effect by decisions of the United States Supreme Court which have declared literacy tests a prerequisite for voter registration to be contrary to the United States Constitution; and

Whereas, the election officials of all cities and towns should be informed that under the Supreme Court decision and pending a change in state law, they cannot administer literacy tests prior to registering voters; now, therefore, be it

Resolved by the House of Representatives, the Senate concurring:

That the attorney general be directed to prepare a letter addressed generally to all election officials in the state explaining the effect of United States Supreme Court decisions which have invalidated literacy test laws, including RSA 55:10-13, and stating that election officials may not administer such tests prior to registering voters:

That the attorney general deliver said letter to the secretary of state who shall make a sufficient number of copies and who shall mail a copy to all of the election officials in the state:

That the clerk of the Senate give copies of this resolution to the attorney general and the secretary of state.

Wednesday, 12 May 76

The House met at 11:00 o'clock.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

Good Morning Lord! Yes, it is a good morning Lord, for we are alive. Alive! From the bottom of our feet to the top of our heads we are alive! Let us move forward with determination to serve the people of our state as You would have us serve. Let there be no thought of failure in the matters before us that really count for greatness, justice, truth, mercy, life, liberty.

Someone has said a failure is a person, who, when opportunity knocked on his front door, he was out in the backyard looking for four-leaf clovers. O God keep us in the front lines where the action is and dare to be decision makers for the good of our state and people, as You would have us see it. May we open the doors of our lives and seek Your Divine guidance, for with it we can not fail. God bless us, in Jesus' name. Amen!

COMMITTEE REPORTS

Rep. French moved that House Rule 44 be so far suspended as to permit the House to take action on the following bills: HB's 34, 35, 37, 45, 46; and SB's 24, 45, 47 and 51.

Adopted by the necessary two-thirds.

HB 4, to alter the minimum mental illness coverage requirements under major medical and non-major medical accident and health insurance. Ought to pass with amendment. Rep. Drake for Appropriations.

Our analysis of present law indicates that Chapter 349 was discriminating in favor of mental illness. The Committee amendment provides that mental illness will be treated essentially the same as physical illness.

The amended bill will reduce the estimated cost of mental health coverage by an estimated 1.5 million dollars.

It adds coverage for services provided by community mental health clinics, the New Hampshire Hospital and clinical psychologists.

The amendment provides for a review of Blue Cross/Blue Shield rates for mental health coverage within ninety days and takes steps to assure a prompt revision of rates due to the revision of required coverage.

AMENDMENT

Amend RSA 415:18-a as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

415:18-a Coverage for Mental or Nervous Conditions Required.

I. Each insurer that issues or renews any policy of group or blanket accident or health insurance providing benefits for medical or hospital expenses, shall provide each group, or to the portion of each group comprised of certificate holders of such insurance who are residents of this state and whose principal place of employment is in this state, coverage for expenses arising from the treatment of mental illnesses and emotional disorders which, in the professional judgment of psychiatrists and psychologists, are subject to significant improvement through short-term therapy, and benefits for expenses arising from diagnosis and evaluation of all other mental illnesses and emotional disorders. Such benefits shall be at least as favorable to the certificate holder as the minimum benefits specified in paragraphs II, III and IV.

II. In the case of policies or certificates providing benefits for hospital expenses on other than a major medical basis, benefits based upon confinement in a licensed or accredited general hospital, including psychiatric inpatient facilities included under the license of such a hospital, shall be at least as favorable as benefits provided for any other illness in such a hospital; and benefits based upon confinement in a public mental hospital shall be at least as favorable as benefits provided for confinement in a licensed or accredited general hospital.

III. In the case of policies or certificates providing benefits for medical expenses on other than a major medical basis:

(a) Benefits for services of a psychiatrist or psychologist, who customarily bills patients directly shall be subject to terms and conditions at least as favorable as those which apply to the benefits for the services of physicians for other illnesses, and the ratio

of the benefits to the fees reasonably and customarily charged for the services of such psychiatrists or psychologists shall be substantially the same as the ratio of the benefits for services of physicians for other illnesses to the fees reasonably and customarily charged for the services of such physicians for other illnesses.

(b) Benefits for services rendered at a community mental health center approved by the division of mental health, department of health and welfare, shall be subject to terms and conditions at least as favorable as those which apply to the benefits for the treatment of other illnesses, and the ratio of the benefits to the full reasonable charges for the services of such a center shall be substantially the same as the ratio of the benefits for services of physicians for other illnesses to the fees reasonably and customarily charged for the services of such physicians for other illnesses.

(c) Benefits for outpatient services rendered at a public mental hospital shall be subject to terms and conditions at least as favorable as those which apply to the benefits for the treatment of other illnesses, and the ratio of the benefits to the fees reasonably and customarily charged for the services of such a hospital shall be substantially the same as the ratio of the benefits for services of physicians for other illnesses to the fees reasonably and customarily charged for the services of such physicians for other illnesses.

(d) Benefits for outpatient services under this paragraph need not be provided for the first or second visit providing such a limitation applies in the case of services for other illnesses, and benefits for outpatient treatment may be otherwise limited to not less than 15 full hours of treatment in any consecutive 12-month period.

IV. In the case of policies or certificates providing benefits for hospital and medical expenses on a major medical basis, benefits shall be subject to deductibles and coinsurance at least as favorable as those which apply to the benefits for any other illness, provided that benefits payable for expenses incurred in any consecutive 12-month period may be limited to an amount not less than \$5,000 per covered individual, and to a lifetime maximum of not less than \$10,000 per covered individual. In this paragraph, covered major medical expenses include the reasonable charges for services and treatment on an inpatient, outpatient or partial hospitalization basis by a psychiatrist, a psychologist, a licensed general hospital, a public or licensed mental hospital, or a community mental health center approved by the division of mental health, department of health and welfare.

V. In this section:

(a) "Psychiatrist" means a licensed physician who is board-certified or board-eligible according to the most recently promulgated regulations of the American Board of Psychiatry and Neurology.

(b) "Psychologist" means an individual who is certified under RSA 330-A, or under a similar statute in another state, and who is listed in the National Register of Health Service Providers in Psychology.

419:5-a Coverage for Mental or Nervous Conditions Required.

I. Every hospital service corporation, and every other similar corporation licensed under the laws of another state, shall provide to each group, or to the portion of each group comprised of certificate holders of such insurance who are residents of this state and whose principal place of employment is in this state, coverage for expenses arising from the treatment of mental illnesses and emotional disorders which, in the professional judgment of psychiatrists and psychologists, are subject to significant improvement through short-term therapy, and benefits for expenses arising from diagnosis and

evaluation of all other mental illnesses and emotional disorders. Such benefits shall be at least as favorable to the certificate holder as the minimum benefits specified in paragraphs II and III.

II. In the case of policies or certificates providing benefits for hospital expenses on other than a major medical basis, benefits based upon confinement in a licensed or accredited general hospital, or in psychiatric inpatient facilities included in the license of such a hospital, shall be at least as favorable as benefits provided for any other illness; and benefits based upon confinement in a public mental hospital shall be at least as favorable as benefits provided for confinement in a licensed or accredited general hospital.

III. In the case of policies or certificates providing benefits for hospital expenses on a major medical basis, benefits shall be subject to deductibles and coinsurance at least as favorable as those which apply to the benefits for any other illness, provided that benefits payable for expenses incurred in any consecutive 12-month period may be limited to an amount not less than \$5,000 per covered individual, and to a lifetime maximum of not less than \$10,000 per covered individual. If such policy or certificate is issued jointly with a medical service corporation licensed under RSA 420 or a health service corporation licensed under RSA 420-A, the limit on benefits payable for expenses incurred by any covered individual in any consecutive 12-month period and the limit on lifetime benefits may apply to the total benefits for mental illnesses and emotional disorders provided under such policy or certificate for such individual. In this paragraph, covered major medical expenses include the reasonable charges for services and treatment on an inpatient, outpatient or partial hospitalization basis by a licensed general hospital, a public or licensed mental hospital, or a community health center approved by the division of mental health, department of health and welfare; except that such expenses may exclude charges arising from the professional services of a psychiatrist or a psychologist who customarily bills patients directly rather than to a hospital or community mental health center.

420:5-a Coverage for Mental or Nervous Conditions Required.

I. Every medical service corporation, and every other similar corporation licensed under the laws of another state, shall provide to each group, or to the portion of each group comprised of certificate holders of such insurance who are residents of this state and whose principal place of employment is in this state, coverage for expenses arising from the treatment of mental illnesses and emotional disorders which, in the professional judgment of psychiatrists and psychologists, are subject to significant improvement through short-term therapy, and benefits for expenses arising from diagnosis and evaluation of all other mental illnesses and emotional disorders. Such benefits shall be at least as favorable to the certificate holder as the minimum benefits specified in paragraphs II and III.

II. In the case of policies or certificates providing benefits for medical expenses on other than a major medical basis:

(a) Benefits for services of a psychiatrist or psychologist, who customarily bills

patients directly shall be subject to terms and conditions at least as favorable as those which apply to the benefits for the services of physicians for other illnesses, and the ratio of the benefits to the fees reasonably and customarily charged for the services of such psychiatrists or psychologists shall be substantially the same as the ratio of the benefits for services of physicians for other illnesses to the fees reasonably and customarily charged for the services of such physicians for other illnesses.

(b) Benefits for services rendered at a community mental health center approved by the division of mental health, department of health, and welfare, shall be subject to terms and conditions at least as favorable as those which apply to the benefits for the treatment of other illnesses, and the ratio of the benefits to the full reasonable charges for the services of such a center shall be substantially the same as the ratio of the benefits for services of physicians for other illnesses to the fees reasonably and customarily charged for the services of such physicians for other illnesses.

(c) Benefits for outpatient services rendered at a public mental hospital shall be subject to terms and conditions at least as favorable as those which apply to the benefits for the treatment of other illnesses, and the ratio of the benefits to the fees reasonably and customarily charged for the services of such a hospital shall be substantially the same as the ratio of the benefits for services of physicians for other illnesses to the fees reasonably and customarily charged for the services of such physicians for other illnesses.

(d) Benefits for outpatient services under this paragraph need not be provided for the first or second visit providing such a limitation applies in the case of services for other illnesses, and benefits for outpatient treatment may be otherwise limited to not less than 15 full hours of treatment in any consecutive 12-month period.

III. In the case of policies or certificates providing benefits for medical expenses on a major medical basis, benefits shall be subject to deductibles and coinsurance at least as favorable as those which apply to the benefits for any other illness, provided that benefits payable for expenses incurred in any consecutive 12-month period may be limited to an amount not less than \$5,000 per covered individual, and to a lifetime maximum of not less than \$10,000 per covered individual. If such a policy or certificate is issued jointly with a hospital service corporation licensed under RSA 419 or a health service corporation licensed under RSA 420-A, the limit on benefits payable for expenses incurred by any covered individual in any consecutive 12-month period and the limit on lifetime benefits may apply to the total benefits for mental illnesses and emotional disorders provided under such policy or certificate for such individual. In this paragraph, covered major medical expenses include the reasonable charges of a psychiatrist or psychologist who customarily bills patients directly.

IV. In this section:

(a) "Psychiatrist" means a licensed physician who is board-certified or board-eligible according to the most recently promulgated regulations of the American Board of Psychiatry and Neurology.

(b) "Psychologist" means an individual who is certified under RSA 330-A, or under a similar statute in another state, and who is listed in the National Register of Health Service Providers in Psychology.

Amend the bill by striking out sections 4 and 5 and inserting in place thereof the following:

4 Transition. Notwithstanding RSA 415:18-a, RSA 419:5-a and RSA 420:5-a, as inserted by sections 1, 2 and 3 of this act, respectively, no policy or certificate issued thereunder issued by an accident and health insurer, a hospital service corporation or a medical service corporation, in effect on the effective date of this act, shall be required to provide benefits required by this act until the first day of the first month following 90 days after passage of this act.

5 Implementation. Upon passage of this act, the insurance commissioner shall review the rates currently charged by every medical service corporation and by every hospital service corporation and shall, where appropriate, take steps to assure a prompt revision of rates due to the revision of required coverage for mental or nervous conditions. Any such revision shall be made and shall become effective within 90 days following passage of this act.

COMMITTEE REPORTS (continued)

HB 6, improving the benefits under the present health plan and increasing the state's payment of group hospital and medical insurance for state employees and making an appropriation therefor. Ought to pass with amendment. Rep. Drake for Appropriations.

The Committee amendment provides for improving the benefits under the present health plan from plan "B" to plan "D" (Best plan available) from single member coverage to family coverage providing that the cost of the premium shall be at state expense.

It also provides for comparable benefits for University employees and staff. The Committee considers that this will be a far more substantial and direct benefit to the employees involved than a minor pay raise.

AMENDMENT

Amend the title of the bill by striking out the same and inserting in place thereof the following:

AN ACT

improving the benefits under the present health plan and increasing the state's payment of group hospital and medical insurance for state employees and certain university system employees and making an appropriation therefor.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Increase of State's Payment for Group Hospital and Medical Insurance. Amend RSA 101-A:6 (supp) as inserted by 1963, 327:1 as amended by striking out said section and inserting in place thereof the following:

101-A:6 Group Hospitalization, Hospital Medical Care, Surgical Care and Other Medical and Surgical Benefits. The state shall pay the full premium for each state permanent employee and permanent temporary or permanent seasonal employee as defined in RSA 98-A:3 including spouse and minor, fully dependent children, if any, and each retired employee or retired employee's beneficiary, only if an option was taken at the time of retirement and the employee is not now living, toward group hospitalization, hospital medical care, surgical care and other medical benefits plan, or a group plan offering benefits as good or better than the present plan, if such plan is accepted in place of the present state plan within the limits of the funds appropriated at each biennial session and providing any change in plan or vendor is approved by the fiscal committee of the general court prior to its adoption. Funds appropriated for this purpose shall not be transferred or used for any other purpose.

2 Appropriation. There is hereby appropriated for the fiscal year ending June 30, 1977 the following sums: \$1,923,256 from the general funds of the state; \$730,766 from highway funds; \$54,487 from fish and game funds; \$437,178 from federal funds; \$125,000 from self-sustaining funds. The comptroller may allocate sums between these named accounts for the purposes of section 1. The governor is authorized to draw his warrant for said sums.

3 University System Employees' Group Hospitalization, Hospital Medical Care, Surgical Care and Other Medical and Surgical Benefits. There is hereby appropriated for fiscal year ending June 30, 1977 the sum of \$619,219. The sum hereby appropriated shall be disbursed by the board of trustees of the university system to pay the total premium for each employee, except auxiliary enterprise personnel, including dependent coverage, and for each such employee who is retired or such retired employee's beneficiary only if an option was taken at the time of retirement and the employee is not now living, toward group hospitalization, hospital medical care, surgical care and other medical benefits plan or a group plan offering benefits as good or better than the current plan. Funds appropriated for this purpose shall not be transferred or used for any other purpose.

4 Effective Date. This act shall take effect on August 27, 1976.

Amendment adopted.

Rep. Drake yielded to questions.

There should be no funds for a pay raise for state university employees if the state employees have none. The budget for FY 77 allowed a 10% growth in operating costs over FY 76 which should be more than sufficient.

Resolution adopted.

HB 35, providing a \$10 per week pay increase for classified state employees and operating staff employees of the university system. Inexpedient to legislate. Rep. Drake for Appropriations.

The Committee reports this bill as Inexpedient to Legislate because available funds will be appropriated to HB 6 improving benefits under the present health plan and increasing the state's payment of group hospital and medical insurance for state employees and the university system.

Resolution adopted.

Reps. Record, Spirou, Chambers, Cecelia Winn, John Winn, Symons and Shea wished to be recorded against the committee report.

HB 37, to create and provide police powers for a New Hampshire hospital security force. Refer to the Committee on Judiciary for further study in its deliberations on RSA 105:A. Rep. Drake for Appropriations.

The Committee recommends that this bill be referred to the Judiciary Committee for further study in its deliberations on RSA 105:A.

Rep. Drake explained the committee report.

Referred to the committee on Judiciary for interim study.

HB 45, increasing the salaries of classified state employees, seasonal and temporary employees and operating staff of the university system and making an appropriation therefor. Inexpedient to legislate. Rep. Drake for Appropriations.

The Committee reports this bill as Inexpedient to Legislate because available funds will be appropriated to HB 6 improving benefits under the present health plan and increasing the state's payment of group hospital and medical insurance for state employees and the university system.
Resolution adopted.

SB 24, amending the eligibility requirements to provide for Vietnam bonus payments to those veterans who are otherwise qualified but did not immediately return to New Hampshire upon discharge from military service. Ought to pass. Rep. Drake for Appropriations.

It is estimated that an additional 457, presently ineligible will become eligible. Thirteen thousand three hundred applicants have been approved. Funding is still available for 6700 applicants.
Ordered to third reading.

SB 33, upgrading professional staff requirements and certain buildings at Laconia state school to federal intermediate care facility standards and making an appropriation therefor. Ought to pass with amendment. Rep. Drake for Appropriations.

Amendment funds 12 additional positions for Murphy Building. A resurvey of Murphy to certify it as an Intermediate Care Facility for the Mentally Retarded (ICF-MR) pointed out the need for the additional positions. The amendment eliminates from the bill the Medical Director position and assigns functions to Assistant Superintendent of Professional Services. Personnel to meet the staff requirements for the certification of Rice, Speare and Peterson buildings as ICF-MR facilities and the necessary renovations of the buildings to meet life safety code standards are funded in this amendment.

The upgrading of standards, to meet ICF-MR requirements, returns to the State 60% of the cost incurred for the care of residents housed in the buildings who are determined eligible for TITLE XIX Medicaid. The amendment in its present form returns in FY 1977 approximately \$100,000 to the General Fund.

AMENDMENT

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Laconia State School, Position Changes. Amend RSA 94:1-a (supp) as inserted by 1969, 500:12 as amended by striking out the line reading

The governor is authorized to draw his warrants for the sums hereby appropriated.

6 Effective Date. This act shall take effect July 1, 1976.

Rep. Drake explained the committee report.

Rep. Spirou spoke in favor of the committee report.

Amendment adopted.

Ordered to third reading.

Reps. Campbell and Nighswander wished to be recorded in favor of SB 33.

SB 45, to increase the maximum interest payable on bonds issued by a public housing authority. Ought to pass. Rep. Drake for Appropriations.

This bill increases the maximum interest payable on bonds issued by a public housing authority under the housing authorities law from 8% to 10%.

These bonds are Federally guaranteed by HUD. No obligation on the state.

Ordered to third reading.

SB 50, relative to property tax exemptions allowed to surviving spouses of veterans and establishing the termination date of the Viet Nam conflict for veterans' exemption purposes. Ought to pass with amendment. Rep. Benton for Claims, Military and Veterans Affairs.

Legislation deletes a discriminatory phrase "or the widow of such resident" from the statutes, in favor of "the surviving spouse of such resident"; follows the Veterans' Administration guidance in establishing a cutoff date for service exemption for Viet Nam conflict; prescribes that exemption to a surviving spouse, for a service connected death, shall be on residential real estate only, and such exemption to continue until remarriage of the surviving spouse.

AMENDMENT

Amend RSA 72:28, I as inserted by section 1 of the bill by striking out said paragraph and inserting in place thereof the following:

I. Every resident of this state who served not less than 90 days in the armed forces of the United States in any of the following wars or armed conflicts, the Spanish War, Philippine Insurrection, Boxer Rebellion, World War I, World War II, Korean Conflict, or Viet Nam Conflict, as hereinafter defined who has been discharged or separated therefrom under conditions other than dishonorable or the surviving spouse of such resident, and every resident, or the spouse of such resident, whose services were terminated for a service-connected disability, in consideration of such service, shall be exempt each year from taxation upon his or her residential real estate in the amount of \$50 in taxes, and the surviving spouse of any such resident who suffered a service-connected death shall be exempt each year from taxation upon his or her residential real estate in the amount of \$50 in taxes. If a surviving spouse is not a veteran qualified for any of the foregoing exemptions and the surviving spouse remarries a person who is not a veteran of the wars or armed conflicts cited in this paragraph, the \$50 tax exemption shall be terminated.

Amendment adopted.

Ordered to third reading.

HB 46, increasing the salary of the director of state police and making an appropriation therefor. Ought to pass. Rep. McLane for Executive Departments and Administration.

Presently Col. Doyon is paid \$20,830.18 (including longevity) and Lt. Col. O'Leary is paid approximately \$21,495 (including overtime, holidays and longevity) and Lt. Col. Hayes is paid \$21,675 (same additions). The bill would give Col. Doyon a \$22,000 base salary. Passage of this measure will put the salary of the Director of the Division of State Police over the Deputy Commissioner of Safety but a careful study of the responsibilities that these two jobs entail convinced the entire committee that this was an appropriate change.

SUSPENSION OF RULES

Reps. French and Spirou moved that Rule 45 of the House be suspended, and spoke in favor of the motion.

Rep. Scamman spoke in favor of the motion.

Adopted by the necessary two-thirds.

Rep. Wilfrid Boisvert moved that HB 46 be indefinitely postponed and spoke to his motion.

Reps. Rod O'Connor, Anthony Stevens and Plourde spoke against the motion.

Motion lost.

Ordered to third reading.

SB 42, relative to the dissemination of hard-core pornographic materials. Ought to pass with amendment. Rep. Sayer for Judiciary.

The committee agreed that if SB 42 were added to the present law on pornographic material there would be so much conflict between the two that prosecution would be practically impossible. HB 999 from the regular session "amends several definitions so as to conform to recent United States supreme court decisions and deletes reference to evidence that formerly was admissible to show the effect obscene material would have on the conduct of people." HB 999 is the suggestion of the Attorney General's Office.

There was not a quorum of the committee present—the vote was eight yes, three abstaining. The committee will meet in Room 208, Legislative Office Building, 30 minutes before the convening of the House to ratify the vote.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

amending the laws relative to obscenity and exposing minors to harmful materials.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Definitions. Amend RSA 571-B:1 as inserted by 1969, 252:1 by striking out said section and inserting in place thereof the following:

571-B:1 Definitions. As used in this chapter:

I. "Harmful to minors" means that quality of any description or representation, in whatever form of sexual conduct, when it:

(a) Predominantly appeals to the prurient interest of minors in sex, that is, an interest in lewdness or lascivious thoughts;

(b) Depicts or describes sexual conduct in a manner so explicit as to be patently offensive to contemporary adult standards, in the county within which any offense set forth in this chapter was committed, with respect to what is suitable material for minors; and

(c) Lacks serious literary, artistic, political or scientific value.

II. "Knowingly" means having general knowledge of, or reason to know, or a belief or ground for belief which warrants further inspection or inquiry or both, as to:

(a) The character and content of any material described herein which is reasonably susceptible of examination by the defendant, and

(b) The age of the minor, providing, however, that an honest mistake shall constitute an excuse from liability hereunder if the defendant made a reasonably bona fide attempt to ascertain the true age of such minor.

III. "Minor" means any person under the age of 17 years.

IV. "Sexual conduct" means human masturbation, sexual intercourse actual or simulated, normal or perverted, or any touching of the genitals, pubic areas or buttocks of the human male or female, or the breasts of the female, whether alone or between members of the same or opposite sex or between humans and animals, any depiction or representation of excretory functions, any lewd exhibitions of the genitals, flagellation or torture in the context of a sexual relationship. Sexual intercourse is simulated when it depicts explicit sexual intercourse which gives the appearance of the consummation of sexual intercourse, normal or perverted.

2 Unlawful Conduct. Amend RSA 571-B:2 as inserted by 1969, 252:1 by striking out said section and inserting in place thereof the following:

571-B:2 Offenses.

I. It shall be unlawful for any person knowingly to give, sell, loan or otherwise provide, with or without monetary consideration, to a minor:

(a) Any picture, photograph, drawing, sculpture, motion picture film or similar visual representation or image of a person or portion of the human body which depicts sexual conduct and which is harmful to minors, or

(b) Any book, pamphlet, magazine, printed matter however reproduced, or sound recording which contains any matter enumerated in RSA 571-B:2, I (a) or explicit and detailed verbal descriptions or narrative accounts of sexual conduct and which, taken as a whole, is harmful to minors.

II. It shall be unlawful for any person knowingly to exhibit, for or without monetary consideration, to a minor or knowingly to sell to a minor an admission ticket or pass or knowingly to admit a minor, for or without monetary consideration, to premises whereon there is exhibited a motion picture, show or other presentation which, in whole or in part,

depicts or describes sexual conduct and which is harmful to minors.

3 Definitions. Amend RSA 650:1 as inserted by 1971, 518:1 by striking out said section and inserting in place thereof the following:

650:1 Definitions. In this chapter:

I. "Disseminate" means to import, publish, produce, print, manufacture, distribute, sell, lease, exhibit or display.

II. "Knowledge" means general awareness of the nature of the content of the material.

III. "Material" means any printed matter, visual representation, live performance or sound recording including but not limited to, books, magazines, motion picture films, pamphlets, phonographic records, pictures, photographs, figures, statues, plays, dances or other representation or embodiment of the obscene. Undeveloped photographs, molds, printing plates, and the like, shall be deemed obscene material notwithstanding that processing or other acts may be required to make the obscenity patent or to disseminate it.

IV. Material is "obscene" if, considered as a whole, to the average person

(a) when applying the contemporary standards of the county within which the obscenity offense was committed, its predominant appeal is to the prurient interest in sex, that is, an interest in lewdness or lascivious thoughts;

(b) it depicts or describes sexual conduct in a manner so explicit as to be patently offensive; and

(c) it lacks serious literary, artistic, political or scientific value.

V. "Predominant appeal" shall be judged with reference to ordinary adults unless it appears from the character of the material or the circumstances of its dissemination to be designed for children or other specially susceptible audience.

VI. "Sexual conduct" means human masturbation, sexual intercourse actual or simulated, normal or perverted, or any touching of the genitals, pubic areas or buttocks of the human male or female, or the breasts of the female, whether alone or between members of the same or opposite sex or between humans and animals, any depiction or representation of excretory functions, any lewd exhibitions of the genitals, flagellation or torture in the context of a sexual relationship. Sexual intercourse is simulated when it depicts explicit sexual intercourse which gives the appearance of the consummation of sexual intercourse, normal or perverted.

4 Unlawful Conduct. Amend RSA 650:2, I as inserted by 1971, 518:1 by striking out said paragraph and inserting in place thereof the following:

I. sells, delivers or provides, or offers or agrees to sell, deliver or provide, any obscene material; or

5 Admissible Evidence. Amend RSA 650:5 as inserted by 1971, 518:1 by striking out said section and inserting in place thereof the following:

650:5 Evidence; Adjudication of Obscenity. In any prosecution under this chapter, evidence shall be admissible to show:

I. the character of the audience for which the material was designed or to which it was directed;

II. what the predominant appeal of the material would be for ordinary adults or any special audience to which it was directed;

III. the degree of public acceptance of the material in this state;

IV. appeal to prurient interest, or absence thereof, in advertising or other promotion of the material; and

V. the good repute of the author, creator, publisher or other person from whom the material originated;

VI. expert testimony and testimony of the author, creator, publisher or other person

from whom the material originated, relating to factors entering into determination of the issue of obscenity.

6 Effective Date. This act shall take effect upon its passage.

Rep. Sayer spoke in favor of the amendment.

Amendment adopted.

Rep. Hobbs offered an amendment.

Reps. Riley, Krasker and Gillis spoke in favor of the Hobbs' amendment.

Rep. Morrisette spoke against the Hobbs' amendment.

Rep. Frizzell explained the committee report, and spoke against the Hobbs' amendment.

Hobbs' amendment lost.

Ordered to third reading.

Rep. Cunningham wished to be recorded in favor of SB 42.

SB 47, permitting the gross weight on the interstate highway system as authorized by the Federal Aid Highway Amendments of 1974. Ought to pass. Rep. Ryan for Transportation.

After a full day of testimony and an executive session with the Director of State Police, Col. Paul Doyon, the committee voted this bill as ought to pass 10-5. Both the Department of Public Works and the State Police supported this legislation. It has passed three other New England states, Massachusetts, Rhode Island and Maine.

Rep. Belcourt moved that SB 47 be laid upon the table.

Adopted.

Reps. French and Spirou moved that SB 51, relative to the liability of a husband or wife for payment of the other spouse's resident tax, be made a special order for Tuesday next, May 18th.

Adopted.

The sub-committee on Resolutions and Screening having approved its introduction, Reps. French and Spirou offered the following:

HOUSE RESOLUTION NO. 9 relative to the governor and council policy regarding conflict of interest

Whereas, the governor and council has adopted, without prior consultation with the legislative leadership, a policy barring legislators from employment and appointment in the executive branch and barring firms employing legislators from contracting with the state through the governor and council except by the process of competitive bidding, which prohibition likewise applies to social service agencies whose funding, in whole or in part, is approved by the governor and council; and

Whereas, the State of New Hampshire has a long tradition of broad and virtually unpaid citizen participation in its legislature, a tradition that depends in large part on the ability of legislators to freely conduct their business and personal affairs notwithstanding their participation in public life; and

Whereas a significant proportion of New Hampshire's working population is either directly employed by state government or by firms contracting with the state, and an equally significant number of its citizens are involved in the delivery of social and other services funded in whole or in part through state contracts approved by governor and council; and

Whereas, the policy of the governor and council, while laudable in its purpose, threatens seriously to undermine the concept of the "citizen legislature" by requiring significant numbers of persons presently serving in the legislature to jeopardize their livelihoods, the success of business ventures with which they are associated, and the continued funding of social service and other programs with which they are involved; and

Whereas, the governor, at the meeting of the governor and council on May 4, 1976, invoked the aforementioned policy to bar approval of federal funds to the Seacoast Regional Counseling Center until Rep. Richard Lockhart, executive director of the Center, resigns either his seat in the House of Representatives or his position with the Center.

Now therefore be it resolved that the House of Representatives urges the governor and council to rescind the aforementioned policy at its next meeting;

And be it further resolved that, if the governor and council should fail, at its next meeting, to rescind the said policy, the House of Representatives urges the House leadership to take whatever actions may be necessary to secure an expeditious judicial determination of the validity of the governor and council's actions in adopting and applying the said policy.

Reps. French, Spirou, Lyons and Lawton spoke in favor of the Resolution.

Rep. French requested a roll call.

Sufficiently seconded.

O God, help us to dare to be somebody, to do something. Give us the courage that will enable each of us to resist the "do nothing"- "be nothing" kick. Deliver us from the "noisy gong" and "clanging symbol" and set us free to move forward in service through love of You, others and self and in that order. In the name of the One who calls us to such love. Amen!

SPECIAL ORDER

The Speaker called for the Special Order:

SB 51, relative to the liability of a husband or wife for payment of the other spouse's resident tax. Majority: Ought to pass. Rep. Cunningham for Ways and Means. Minority: (Reps. Splaine, Wallin, Seamans and Appel): Ought to pass with amendment.

The majority of the Committee felt that it was needed because of the staggered registration and that it would make the law easy to administer.

Minority: The bill completely reverses the original purpose of this legislation. The bill is very unclear as to responsibility in payment of the resident tax. The minority position is that the bill as originally written eliminates all discrimination that exists under present law.

Rep. Spirou requested a quorum count.

233 members having answered the count, a quorum was present.

Rep. Underwood moved that SB 51 be referred to the Committee on Judiciary for interim study.

Rep. Cunningham spoke in favor of the motion.

Adopted.

COMMITTEE REPORTS SUSPENSION OF RULES

Rep. French moved that Rule 44 be so far suspended as to permit the House to take action on the following bills: SB 55, SB 57, SB 39, SB 59, SB 49, SB 54, SB 53 and SB 52.

Adopted by the necessary two-thirds.

SB 26, relative to driver alcohol retraining program and relating to the restoration of driving privileges upon a finding of not guilty of driving under the influence of intoxicating liquors or controlled drugs. Refer to interim study committee. Rep. Drake for Appropriations.

The Committee voted to send SB 26 to interim study because:

1. It raises the question of constitutionality of the conversion of highway funds to general funds.
2. It reduces income to district and municipal courts by reducing their amount of fines retained by such court below their actual cost.
3. It leaves unresolved questions on policy and should be referred to the appropriate policy committee as follows:

(a) It appears that this bill would allow the Director of the program to force a guilty finding without a trial. (b) It raises the policy question of whether non-DWI drivers should subsidize DWI drivers by paying higher insurance rates. (c) It

raises the policy question of full driving license retention during the schooling period.

Referred to interim study.

SB 48, relative to appropriations for capital improvements for certain state agencies and departments; decreasing the appropriation for maintenance repairs at the state prison and extending the 1973 highway betterment appropriation.

Rep. Normand moved that SB 48 be made a special order for 10:45 this morning.

Adopted.

SB 55, relative to the payment of school building aid money to the Sanborn and Timberlane regional school districts and the Wakefield school district. Inexpedient to legislate. Rep. Lockhart for Education.

This bill sets a precedent that should be covered by more comprehensive legislation.

Rep. Rogers moved that the words, ought to pass with amendment, be substituted for the committee report, inexpedient to legislate, and spoke to her motion.

Reps. William Boucher and Drake spoke against the motion.

Reps. Sanborn and Eugene Daniell spoke in favor of the motion.

Motion lost.

Rep. Sanborn requested a roll call on adoption of the committee report.

Sufficiently seconded.

Committee feels this is an effective compromise and would take a step towards fulfilling the need.

Rep. Lessard offered an amendment.

AMENDMENT

Amend RSA 188-D:11, II as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:

II. Application for and disbursement of all monies shall be made in the form and manner designated by the postsecondary education commission. No monies may be disbursed by the postsecondary education commission under this subdivision until the

postsecondary education commission has established rules and regulations under paragraph 1 (d) and has filed such rules and regulations with the fiscal committee of the general court and the governor and council.

Ordered to third reading.

SB 39, requiring credit card companies to notify credit card holders whenever their records are disclosed to any federal or investigatory agency under court order or subpoena. Refer to the Committee on Judiciary for interim study. Rep. Shirley Clark for Banks and Insurance.

The Committee held a pretty complete hearing on this bill and we are convinced that there may be legal ramifications of which we are not aware. Furthermore, we feel that we do not have the background in investigatory matters and subpoenas which the Judiciary Committee has. The bill has merit but is not of an emergency nature.

Referred to Committee on Judiciary for interim study.

SB 59, relative to the authority of the state board of education to remove or to authorize the employment of superintendents, assistant superintendents, teacher consultants and business administrators. Inexpedient to legislate. Rep. Lockhart for Education.

The Committee felt that cause for concern has not been evidenced.

Rep. Lockhart spoke in favor of the motion.

Motion adopted.

SB 49, relative to the operation of the print shop in the office of the commissioner of resources and economic development. Refer to the Committee on Executive Departments and Administration for interim study. Rep. Carswell for Executive Departments and Administration.

Committee voted to send SB 49 to interim study. An appointed committee had studied subject for six months and the legislative committee felt they needed more time to absorb the report so as to act judiciously.

Rep. McLane moved that the words, Refer to the Legislative Facilities Committee, be substituted for the committee report, Refer to the Committee on Executive Departments and Administration for interim study.

Adopted.

SB 54, to give the superior court injunctive power over certain motor carrier activities. Ought to pass. Rep. Frizzell for Judiciary.

Some motor carriers having a franchise to haul rubbish are exceeding their territorial rights. Even when brought to court they continue the practice and before being convicted have run out of business the "little guy". This bill would make possible the discontinuance of this practice.

Ordered to third reading.

Rep. William Boucher wished to be recorded in favor of the committee report.

SB 53, relative to workmen's compensation coverage for domestic employees. Inexpedient to legislate. Rep. Goyette for Labor, Human Resources And Rehabilitation.

Unanimous decision of Committee that this bill be "inexpedient". The existing statute gives the protective measure of coverage for both the employer and employee and the total "Workmen's Compensation" bill that took effect January 1, 1976.

The passage of a measure like this would be a backward step for New Hampshire which has been a forerunner in Workmen's Compensation Law.

COMMUNICATION

Speaker George B. Roberts Jr.

Speaker of the House

Dear Speaker Roberts:

This is to congratulate you and the New Hampshire General Court for organizing one of the most unusual and successful energy conferences held in this country.

It is a tribute to you and the New Hampshire House and Senate that in a critique conducted by our staff following the New Hampshire Legislative Energy Seminar your solons scored exceptionally high in the earnestness with which they tackled the problems of energy, the quality of the information presented by the resource experts, the skill of your legislative panel moderators in keeping the pace at a high level, and the energy and dedication of the legislative staff in helping to plan and conduct the conference.

After 40 years of working with legislatures throughout this country, I came away from the seminar deeply convinced that New Hampshire has as fine a legislature as any in the nation. Rate it on sincerity, rate it on devotion to duty, rate it on willingness to learn, and you must conclude it rates with the best. Your own foresight in initiating the seminar, your close supervision of the planning for the event all contributed to its success.

It was a pleasure for our Northeastern Legislative Energy Staff to work with the

General Court. We are always available to help. The experiment in representative government initiated by our forefathers 200 years ago is working well in New Hampshire.

Sincerely yours,
Albert J. Abrams
Director

RECESS

Wednesday, May 19

Prayer was offered by House Chaplain Rev. Milton L. Smith, Sr.

"I walked by the field of a certain lazy fellow and saw that it was overgrown with thorns, and covered with weeds; and its walls were broken down. Then, as I looked, I learned this lesson: 'A little extra sleep, A little more slumber, A little folding of the hands to rest' means that poverty will break in upon you suddenly like a robber, and violently like a bandit."-Proverbs of King Solomon-Proverbs 25:30-34

Dear God, keep us awake, sharp and alert for the time is now. There is no time but the present. This is the "eighth day",—our day under the sun. Keep us from tranquilizing ourselves in the "wide and easy way" That leads to destruction but rather give us the courage to follow the "straight and narrow path" of righteousness, that will make a nation and people great. We pray for such greatness for our nation and people let it begin with us. Amen.

and the motion passed by the necessary two-thirds (two-thirds of the qualified members not being present.)

The Speaker appointed Reps. Shirley Clark, Ward, Plourde and Mahoney as conferees on HB 4.

Reps. French and Spirou moved that the House be in recess until Tuesday next, at 10:00 a.m.

RECESS

Rep. French moved that the House adjourn from May 18.

Adopted.

Tuesday, 25 May 76

The House met at 1:00 o'clock.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

Let us pray: Perhaps it is the time of year that makes us somewhat anxious about the use of time. Time is so important, there seems so little of it. Yet, we have every second, minute hour—all the time there is to be had. Guide us that we may use our time, a gift from You, wisely and well—and with it, all privileges and responsibilities, that come our way.

Remind us once again in the rush of these last legislative hours that what is morally wrong can never be religiously, economically, politically, socially, ecologically, educationally, nor for any "expedient" reason, right in Your concern, design and purpose for mankind.

Enable us to turn and respond to Your Divine guidance, In Jesus's name. Amen!

Rep. David Bradley led the Pledge of Allegiance.

LEAVES OF ABSENCE

Reps. Kenneth Spalding, Tucker, Beard, Ellis and Zechel, the day, important business.

Rep. Lucas, the day, illness.

The subcommittee on Resolutions and Screening having approved its introduction, the Portsmouth Delegation offered the following:

Whereas, the Lehigh County (Pennsylvania) Bicentennial Committee is sponsoring a Festival of Colonies Band Competition June 13 through 17 1976, and

COMMITTEE REPORT

SB 62, relating to financial security of horse and dog racing licensees; relating to a temporary adjustment of the tax on dog racing, and making an adjustment in the tax on

harness horse races. Majority: Ought to pass with amendment; Reps. Currier and Drake for Ways and Means and Appropriations.

Minority (Reps. Splaine, Normand and Anthony Stevens): Refer to the Committee on Ways and Means for interim study.

Majority: As amended this bill grants the Racing Commission and the Attorney General expanded powers in the procedure for issuing racing licenses. The second portion of the bill gives some relief for dog racing in an attempt to insure there is dog racing at all existing facilities.

Minority: 1. This legislation is too important and complex to consider and pass within a twenty-four hour period.

2. This will produce nothing but confusion in an eleventh hour effort, and calls for further examination in interim study.

3. The bill deals with a total reform of our pari-mutuel tax scale with implications that are far from clear.

COMMUNICATIONS

Honorable George B Roberts, Jr.
Speaker of the House

Dear Speaker Roberts:

Please express my profound thanks to the many friends and fellow colleagues in the House for their generous recognition of my many years in the New Hampshire Legislature. I also thank all my friends for the gift which will be very useful for my vacation.

I thank all of you, especially for the time and consideration that must have gone into the party following last Tuesday's Legislative Session.

The warmth and good wishes expressed to me during recent days, and the many memories gathered after my 32 years of serving in the Legislature, will remain in my heart forever.

I wish all of you a healthy and rewarding future in the Legislature—may your service in the Great and General Court bring continued prosperity to our State.

Thank you.

Sincerely,

Rep. Agenor Belcourt

Honorable George Roberts
Speaker of the House of Representatives

Dear Mr. Speaker,

I understand that the House voted yesterday to submit the question of the alleged unconstitutionality of Senate Bill 62 to the Supreme Court for an opinion.

Knowing your desire to have the legislation decided upon its merits rather than its alleged constitutionality, I am pleased to offer you the full resources of the executive branch in framing the question.

If the House and Senate are not in a position to submit the question immediately to the Supreme Court so that action may be taken during the first week in June, I will be happy to suggest to Governor and Council that they submit the question to the Court this morning.

Would you please advise me before the conclusion of the Governor and Council meeting this morning whether you desire that we consider this matter.

Sincerely,

Meldrim Thomson, Jr.

Governor

Governor Meldrim Thomson, Jr.

Dear Governor Thomson:

Thank you for your offer of the full resources of the executive branch in assisting the House in preparing questions concerning the constitutionality of SB 62.

However, our own resources should be more than adequate to prepare these questions promptly and correctly.

I have asked the House Appropriations and Ways and Means Committees to meet jointly today during the noon recess and consider the matter and expect that their recommendations will be reported back to the full House this afternoon.

We are concerned that this important matter be decided on its merits but I assure you that we are also prepared to act quickly upon it.

Sincerely,

George B. Roberts, Jr.

The subcommittee on Resolutions and Screening having approved its introduction, Reps. Conley, Lyons and Roderick O'Connor offered the following:

House Concurrent Resolution No. 5

establishing a committee to study the need of the General Court for nursing and first aid services at late night sessions.

Whereas, there are numerous members of the General Court faithfully serving in spite of various illnesses and disabilities; and

Whereas, on many occasions these legislators are required to remain in attendance at late night sessions during which their illnesses and disabilities may be aggravated; and

Whereas, these legislators frequently need medical care and treatment and other legislators on occasion need emergency first aid treatment; and

Whereas, there is a first aid room located in the basement of the State House which is staffed by a nurse provided by the Division of Public Health, Department of Health and Welfare, from 8:00 A.M. to 5:00 P.M.; and

Whereas, one such nurse Eileen Smith did faithfully and on her own time after hours saw to the many needs of all legislators in an exemplary manner for many years with our thanks; and

Whereas, there is now no nurse or other medical personnel staffing the first aid room after 5:00 P.M. on legislative days when the General Court remains in session; therefore, be it

Resolved by the House of Representatives, the Senate concurring, that a five member committee be established to study the need of the General Court for nursing and first aid services at late night sessions and at other times when the General Court is in session; and

That three members of the committee be appointed from the membership of the House of Representatives by the Speaker and two members of the committee be appointed from the membership of the Senate by the President of the Senate; and

That the committee report its recommendations to the House of Representatives on the next legislative day of the House of Representatives and to the Senate on the next legislative day of the Senate.

The subcommittee on Resolutions and Screening having approved its introduction, Reps. Spirou and French offered the following: HOUSE RESOLUTION NO. 13 relating to investigation of certain state departments and agencies.

Whereas, allegations of a fraudulent scheme involving the division of motor vehicles in the New Hampshire department of safety are under review by a federal grand jury in Massachusetts; and

Whereas, the attorney general of New Hampshire has announced his intention to undertake a similar grand jury inquiry; and

Whereas, evidence introduced in the United States district court for the district of New Hampshire has tended to show that a substantial number of New Hampshire motor vehicle titles have been issued covering non-existent vehicles; and

Whereas, three high officials of the division of motor vehicles have been discharged, and one of them has asserted that his discharge stemmed from his cooperation with the Federal Bureau of Investigation; and

Whereas, legislation establishing the bureau of title and anti-theft within the division of motor vehicles was intended to reduce the likelihood of theft or fraud involving the ownership of motor vehicles; and

Whereas, events have raised serious questions about the effectiveness of existing legislation and of management within the division of motor vehicles; now, therefore, be it

Resolved by the house of representatives in general court convened, That

I. The house of representatives authorizes and directs the speaker to appoint a special committee of the house to consist of 7 members, no more than 4 of which shall be affiliated with the same political party, to investigate the management and the adequacy of legislation pertaining to the division of motor vehicles and such other divisions, departments or agencies of the state as may appear to the committee to warrant investigation. Any decision of the committee to investigate any other agencies shall be by majority vote;

II. That the said special committee shall report its findings to the next regular session of the house, together with any recommendations for remedial legislation not later than December 1, 1976;

III. That the said committee shall have full authority to compel the attendance of witnesses, the production of documents and to administer oaths; and any person who fails to honor a subpoena shall be deemed to be guilty of legislative contempt;

IV. That the said committee shall have authority to retain and to compensate counsel using any funds available in the line item "House of Representatives — Legal Services and Consultants" and the house subcommittee for legislative management of the legislative facilities committee is authorized to transfer into said line item funds from any other house account not otherwise encumbered;

V. That the legislative budget assistant is directed to provide for stenographic services for the proceedings of the said committee, at its request.

The clerk read the resolution in full.

Reps. French and Spirou spoke in favor of the resolution.

A division was requested.

A roll call was requested.

Sufficiently seconded.

COMMITTEE REPORT

SB 62, relating to financial security of horse and dog race licensees; relating to a temporary adjustment of the tax on dog racing, and making an adjustment in the tax on harness horse races (Reps. Kenneth Smith, Scamman, Scranton and Cunningham for the committee)

The Joint Committee on Appropriations and Ways and Means has adopted the following resolution, relative to SB 62, which it recommends to the House for submission to the State Supreme Court.

HOUSE RESOLUTION NO 15

Whereas, Senate Bill 62 originated in the New Hampshire Senate, was passed by that body and was sent to the New Hampshire House of Representatives for further action; and

Whereas, Section 6 of Senate Bill 62 would impose a direct tax on pari-mutuel pools made at dog races, at varying rates ranging from 1-2/3% to 10%, depending on the size of the pari-mutuel pool; and

Whereas, Section 8 of the bill would restrict availability of the tax rates established in Section 6 of the bill to tax payers meeting "all just and presently existing secured obligations," to the satisfaction of the Attorney General; and

Whereas, Section 9 of the bill would impose a direct tax on pari-mutuel pools made at harness horse races, at varying rates ranging from 4-1/4% to 9-1/2%, depending on the size of the pool; and

Whereas, the tax rates established for harness racing pari-mutuel pools in Section 9 of the bill differ from the tax rates established for dog racing pari-mutuel pools in Section 6 of the bill, and the rates established in Section 6 and 9 of the bill differ from the tax rates established for running horse race pari-mutuel pools in RSA 284:23.1;

Now, therefore, be it Resolved by the House of Representatives that the Justices of the Supreme Court be respectfully requested to give their opinion upon the following questions:

1. May those sections of SB 62 which would impose direct taxes on pari-mutuel pools be lawfully enacted, in view of the provision of Part II, Article 18 of the Constitution of New Hampshire, requiring that "money bills" shall originate in the House of Representatives?
2. May Section 6 of SB 62, which would impose a tax at varying rates on dog racing pari-mutuel pools, be lawfully enacted in view of the provisions of Part II, Article 5 of the Constitution of New Hampshire, relating to "proportional and reasonable" taxation, or any other provision of the Constitution?
3. May Section 8 of SB 62, which would condition the availability of the tax rates

established in Section 6 on payment of private obligations, be lawfully enacted in view of Part II, Articles 5 and 6 of the Constitution, or any other constitutional provision?

4. May section 9 of SB 62, which would impose a tax at varying rates on harness racing pari-mutuel pools be lawfully enacted in view of the provisions of Part II, Article 5 of the New Hampshire Constitution relating to proportional and reasonable taxation, or any other constitutional provision?

5. May Section 6 and Section 9 of the bill, which impose rates of taxation for dog racing pools, different from harness racing pools, and which together impose rates of taxation different from running horse race pools (RSA 274:23, I) be lawfully enacted, in view of the provisions of Part II, Articles 5 and 6 of the New Hampshire Constitution, or any other constitutional provision?

Good Morning Lord. We are grateful that You are the God of the ordinary as well as the spectacular, for the ordinary far out weigh the spectacular, especially when it comes to folks. Yes, the most of us fit into the ordinary, common folk class. Yet, our task here is of the spectacular, out of the ordinary, the uncommon, for so few are called to serve so many. Remind us, that we are not here as the privileged few to serve a privileged few, but rather to do the right thing, with a mind to serve all the people with our very best. Guide us, dear God, in the way, Your way, the best way. Thank You God for this opportunity to shape this ordinary day into a great witness to a government "of the people, by the people, for the people", with responsible leadership. In the Name of the One who is the "Way and the Truth and the Life". Amen.

VETO MESSAGE

June 3, 1976

To The Honorable Members
of the General Court

Pursuant to Article 44, Part II of the Constitution, I return herewith House Bill 46 with my objections to its enactment indicated below.

1. This is a discriminatory bill in that it singles out the Director of the State Police for an immediate pay raise of \$3,850 which would make his salary \$24,500.

While conceding that the Director of State Police might be deserving of a pay raise of over \$300 per month, the same could be said of many others in the unclassified state service against whom this bill discriminates.

2. It would substantially increase the pay of the Director of State Police above that of

others of equal position and responsibility in the Department of Public Safety.

The pay scale of the heads of divisions in this department and that of the Commissioner would, with this raise for the Director of State Police, be as follows:

Commissioner	\$25,044
Deputy Commissioner	21,043
Asst. Commissioner	18,709
Director of State Police	24,500
Director of Motor Vehicles	19,953
Director of Safety Services	16,416

Passage of this bill would say to other dedicated and efficient heads of branches of state government, "if you want a raise you'll have to have political clout."

3. I believe that all unclassified personnel should have their remuneration and responsibilities carefully reviewed and evaluated, and that the next regular session of the Legislature should enact a "1977 Fair Unclassified Pay Act."

I would favor an increase in the pay of the Director of State Police if all others in the unclassified service were given equal consideration.

4. Too many inequities already exist in the pay of unclassified personnel. This bill would only add to and perpetuate the problem.

Respectfully,
Meldrim Thomson, Jr.

Reps. Anthony Stevens, McLane, Carswell, Ryan, Spirou and French spoke in favor of overriding the veto.

Reps Lawton, George Wiggins and James Murray spoke against overriding the veto.

Question being shall HB 46 pass notwithstanding the Governor's veto.

HOUSE CONCURRENT RESOLUTION NO. 6

establishing a special committee to study tax reform at all levels of government.

Resolved by the Senate and House of Representatives in General Court convened:

Whereas, equitable and fair taxation for all citizens has been and will continue to be a principal goal of good government at all times; and

Whereas, in New Hampshire the present tax structure combined with the proliferation of new fees and license permits is not a solution to our fiscal difficulties but simply a continuation of old inequities and regressive taxes; and

Whereas, the present real estate property tax has long been recognized as inequitable and unfair constitutes a cruel and inequitable burden upon all citizens of moderate or slender means, whether living on their own homesteads or in rented quarters; and

Whereas, concerned citizens for many years have repeatedly brought to the attention of the governor of our state and various legislative leaders the inequity of the present tax structure and have been assured for years of their understanding and of their willingness to correct those inequities, but the results have been the same — no significant tax reform; and

Whereas, the fiscal events of 1975 have brought the monetary situation of New

Hampshire into sharp focus causing great distress to our citizenry; now therefore be it Resolved by the Senate and House of Representatives in General Court convened That

I. There is hereby established a special committee to study tax reform, to study, report and recommend legislation to reform the entire tax structure of this state, including possible methods of broadening the tax base.

II. The special committee to study tax reform shall consist of:

(a) The president of the senate and the speaker of the house, or their designees.

(b) The minority leader of the senate and of the house, or their designees.

(c) The chairman of the house ways and means committee, the chairman of the senate committee on ways and means and administrative affairs, the chairman of the house appropriations committee and the chairman of the senate finance committee or their designees.

(d) Two representatives of the business community and two representatives of labor, one to be appointed by the speaker of the house and one to be appointed by the president of the senate.

(e) Three representatives of town, city and county government appointed by the New Hampshire Municipal Association.

(f) Six representatives of the general public; 3 appointed by the president of the senate, and 3 appointed by the speaker of the house.

(g) The person serving as chairman of the Legislative Council of the New Hampshire chapters of the American Association of Retired Persons and the National Retired Teachers Association, or his designee.

III. The committee shall hold public hearings throughout the state and may subpoena witnesses and administer oaths and compel the production of papers and documents necessary to its study.

IV. The committee shall organize and commence its study not later than 30 days after passage of this resolution. If any appointive position on the committee is not filled within 30 days after passage of this resolution, the members of the committee as then constituted shall fill such position by majority vote.

V. The committee shall submit its findings and recommendations to the general court no later than December 6, 1976.

HOUSE CONCURRENT RESOLUTION NO. 7

commending the secretary of state, Robert L. Stark

Resolved by the Senate and House of Representatives in General Court convened:

Whereas, Robert L. Stark, of Goffstown embarked on a career of service with the New Hampshire General Court thirty-nine years ago in 1937, and

Whereas, he served the 1937 and 1939 sessions as an attache in the House, and

Whereas, he was elected Assistant Clerk by the House for six terms in the Sessions of 1941 through 1951, and

Whereas, having been found eminently qualified, he was elected House Clerk by the 1953 and 1955 Legislatures, and

Whereas, his performance in those roles was so exemplary that he was selected Deputy Secretary of State in 1957, and

Whereas, he succeeded to the office of Secretary of State on February 4, 1960, and subsequently elected by the 1961 General Court to that office, and

Whereas, his execution of the duties of his constitutional office has met with the approval of seven succeeding Legislatures so that he is currently serving his eighth term, and

Whereas, he has given notice he will not seek re-election, now therefore be it

Resolved, by the 1975 General Court, in Special Session convened that Robert L. Stark's devotion to duty, his ever-ready attention to the requests and needs of the Legislature, his just and unprejudiced administration of elections, his unending patience deserve the commendation of the Legislature, and be it further

Resolved, that the afore-mentioned traits are consistent with those of General John Stark, a leader of New Hampshire men in their struggle for independence and a direct forebearer of the present Secretary of State, and be it further

Resolved, that a suitable copy of these resolutions be prepared for presentation to Robert L. Stark.

Reps. Spirou and French spoke in favor of the resolution.

Unanimously adopted.

The subcommittee on Resolutions and Screening having approved its introduction, Reps. French and Spirou offered the following:

HOUSE RESOLUTION NO. 16

Whereas, members of the General Court since 1966 have come to expect the cheerful countenance of Mrs. Eileen Smith, RN, and State House Nurse, and

Whereas, legislators, attaches and all state employees working in the Capitol com-

plex have the comfort of knowing their ills — whether real or imagined — would receive her capable and tender ministrations, and

Whereas, her prolonged absence has driven home the extent to which her smile and presence meant the hours spent legislating, working or serving were less dreary, and

Whereas, she recently tendered her resignation for reasons of health, now therefore be it

Resolved, by the House of Representatives in Special Session convened, that Eileen Smith's exemplary service merits the heartfelt thanks of every member who had need of her services, which she performed so faithfully, and be it further

Unanimously adopted.

Resolved, that the best wishes of her best friends, "patients", and colleagues hopefully will assist in making her retirement years more enjoyable with the realization of what her friendship meant to all of us, and be it further

Resolved, that a suitable copy of these resolutions be prepared for presentation to her.
